Have you mastered these *new* words?

vitamine	Bolsheviki	escadrille	ace	Taube
Freudian	camouflage	fourth arm	tank	Boche
Rotarian	ukulele	Soviet	lorry	brisançe

and hundreds of others are defined and pronounced in

Webster's New International Dictionary

"The Supreme Authority"

Are you still uncertain, and are you embarrassed when called upon to use these *new* words, and to pronounce them? Why not overcome this lack of information and class yourself with those who *know*; those who win success in all lines of activity? *Why not let the New International serve you?*

**A Full Length Novel by
SIR GILBERT PARKER**

NO DEFENCE

An author does not always hold the high level of his best work, but in this truly great romance Sir Gilbert has written a novel which has all the qualities that have made his books "the best sellers" of their day. It has Heart Interest to a degree. The love episodes are warm and human. It has a Strong Plot with unexpected and unusual developments holding one in suspense until the climax. The characters being Irish and English, there are many deft and humorous touches. The author is one of the world's master story tellers, and we believe that this is one of his finest tales.

PACKARD'S NOVELS

The White Moll. By Frank L. Packard . \$2.00

In "The White Moll," as in all of Frank Packard's stories of adventure in the underworld, the reader is at an observation post which commands a view of all the romances, tragedies and incredible heights and depths of a world of real, but unfamiliar people.

Into this world steps Rhoda Gray, the "White Moll," respected and with good reason by every crook, gunman and harri-dan in New York's East Side.

How she plays the part of Gypsy Nan, working for justice and retribution, usually with the strong arm of the Law against her, but with the help of the Adventurer, her unknown lover, is a story which is made of youth and love and brave and thrilling escapades.

From Now On. By Frank L. Packard. How a man's soul was saved by a woman's love . \$2.00

Dave Henderson was not inherently a bad man, but, being sorely tempted, fell. He paid the penalty of the prison cell; he became enmeshed with gangsters, passing through adventures many and desperate. His redemption is accomplished by the sweet influence of a woman in, but not of, the underworld.

Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 15th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 53m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 30m. W. (71° 30'). For any other meridian, interpolation of these quantities is necessary. For example, on October 10th, 1921, what would be the Sidereal Time when the Sun's centre is on the 81st meridian west longitude. Here the difference in longitude is 9°.5. The tabulated sidereal time on the 10th is 13h. 2m. 2s., and on the 11th, 13h. 5m. 43s., giving an increase of 221 secs. which, multiplied by 9°.5 and divided by 360, gives a correction of 6 secs. to be added to 13h. 2m. 2s.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42° N., with the corresponding corrections, which are additive, for latitudes up to 65° N. (See pages 33 and 34.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°	51°	52°	53°

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result *subtract* the constant quantity 1h. 32m.

To find the time of *rising* of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting*, *add* the same number to the time of its meridian passage. Those stars marked (...) revolve in

a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.—Find the times of culmination, rising and setting of α Tauri (*Aldebaran*), January 2nd, 1921.

ECLIPSES DURING 1921.
(F. L. BLAKE.)

In the year 1921 there will be four eclipses, two of the Sun, and two of the Moon.

I.—*An Annular Eclipse of the Sun*, April 8th, 1921, invisible in Canada. The eclipse will be partial in Newfoundland and the Labrador coast..

II.—*A Total Eclipse of the Moon*, April 21st, 1921, the beginning visible generally in North and South America, the Atlantic and Pacific Oceans; the ending visible generally in North and South America, Australia, the Pacific Ocean, and the eastern portion of Asia.

At Toronto the Moon rises 6.42 p.m. Enters the penumbra 11.57 p.m.; enters umbra, April 22nd, 1.3 a.m. Total eclipse begins 2.24 a.m. Middle of the eclipse 2.44 a.m. Total eclipse ends 3.5 a.m. Moon leaves the umbra 4.25 a.m., and leaves the penumbra 5.32 a.m. Moon sets at 5.35 a.m. of the 22nd. 75th Meridian Time — Magnitude of the eclipse = 1.074 (Moon's dia. = 1.0).

III.—*A Total Eclipse of the Sun*, October 1st, 1921, visible only in southern portion of South America, the South Atlantic and Pacific Oceans. The path of totality passes close to the southern end of Patagonia and ends near the south pole.

IV.—*A Partial Eclipse of the Moon*, October 16th, 1921, the beginning visible generally in Asia except the eastern portion, Europe, Africa, the eastern part of South America, the Indian Ocean, and the Atlantic Ocean; the ending visible generally in western Asia,

Europe, Africa, South America, and North America except the extreme western part, the Atlantic Ocean, and western part of the Indian Ocean.

The Moon rises at 5.30 p.m., partially eclipsed. The Moon enters penumbra 3.1 p.m.; Moon enters umbra 4.14 p.m. Middle of the eclipse 5.54 p.m.; Moon leaves umbra 7.34 p.m., and leaves penumbra 8.46 p.m. Magnitude of the eclipse = 0.938 (Moon's diameter = 1.0).

The Moon during 1921 will be at its farthest North and South limits on the following dates:—

Jan. 6.....South max.	July 17.....South
" 21.....North max.	" 31.....North
Feb. 3.....South	Aug. 13.....South
" 17.....North	" 28.....North

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0.003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

ECLIPSES, Etc., OF JUPITER'S SATELLITES, 1921.

In eastern standard time (twenty-four hour system, hours reckoned from midnight). *tr in*, denotes transit of satellite; *tr eg*, transit egress; *sh in*, denotes shadow ingress; *sh eg*, shadow egress; *oc dis*, disappearance of satellite behind planet; *oc re*, reappearance from behind planet; *ec dis*, disappearance of satellite in planet's shadow; *ec re*, eclipse reappearance. By reason of the proximity of Jupiter to the Sun the phenomena of the satellites are not given from August 28th to October 16th.

SOME MODERN THEORIES REGARDING THE INTERNAL CONSTITUTION OF THE STARS.

(F. L. BLAKE.)

During recent years very great strides have been made in our knowledge of the internal constitution of the stars, mainly by the research work in physics, astronomy and allied subjects, of outstanding men of science such as Russell, Hertzsprung, Adams, Lane, Ritter, and others. The most remote worlds are now scarcely safe from their inquisition. H. Shapley has explored the globular clusters, which are to be found at distances scarcely dreamt of hitherto, and our knowledge of them is in some respects more complete than that of the local aggregation of stars which includes the Sun. Moreover, theoretical researches of Einstein and Weyl make it appear probable that the space which remains beyond is not illimitable; not merely the material Universe, but also space itself is perhaps finite. Prof. A. S. Eddington at the recent meeting of the British Association in Cardiff in an address says in part "that probing at the internal constitution of the stars presents many and great difficulties unless we can deal with matter in that state known as a perfect gas. Stars in a truly gaseous state exist in great numbers, although at first sight they are scarcely to be distinguished from dense stars like our Sun. Gaseous stars are the most powerful light givers. Many of the familiar stars are of this kind—Aldebaran, Canopus, Arcturus, Antares; and it would be safe to say that three-quarters of the stars visible to the naked eye are in this diffused state.

The diffused stars are called *giants*, and the dense stars *dwarfs*. During the life of a star there is presumably a gradual increase in density through contraction, so that these terms distinguish the earlier and later stages of stellar history. It appears that a star begins its effective life as a *giant* of comparatively low temperature—a red or M-type star.

As this diffuse mass of gas contracts its temperature must rise. The rise continues until the star becomes too dense, and ceases to behave as a perfect gas. A maximum temperature is attained, depending on the mass, after which the star, which has now become a *dwarf*, cools and further contracts. Thus each temperature-level is passed through twice, once in an ascending and once in a descending stage—once as a *giant* and once as a *dwarf*. The bloated *giant* has a far larger surface than the compact *dwarf*, and gives correspondingly greater light.

In these giant stars say of the mass of that of our Sun, but swollen to a much greater volume on account of the low density, often below that of our own atmosphere, a great store of heat exists caused by the energy of motion of the ultimate particles, flying at great speeds hither and thither, and also in a large proportion sometimes more than half the total heat consists of imprisoned radiant energy—ether waves travelling in all directions trying to break through the material which encases them.

That is the new feature of the problem."

It is with pleasure that we begin to feel that religion and science are more in accord with one another. Some of our old cherished ideas regarding the Universe and how it came into being have received very severe shocks from the findings and investigations of men of science. For more than a hundred years, there has been strife sometimes veiled, but more often open between religion and science. Opinions as to the origins of the earth and man which were held as a result of the Christian tradition have been directly challenged by a succession of novel theories put forward by scientific investigators. At the beginning of last century the foundations of geology were being laid. Gradually it became clear, from a study of the rocks and their fossil remains, that the earth had an almost unimaginable antiquity. The coal which we dig is all that is left of vast tropical forests that once flourished here for tens of thousands of years; and it is now agreed that life has existed on the earth for some millions of years.

Though the new views are directly opposed to those which Christianity took over from Judaism, we accept them with confidence and surely without harm to our faith in Christ. A faith that fears the progress of knowledge anticipates its own dissolution. Evolution seemed disastrous to faith two generations ago because men fixed their attention narrowly on but one part of the process. Now a wider vista seems to be coming into view.

From some fundamental stuff in the Universe the electrons arose. From them came matter. From matter life emerged. From life came mind. From mind spiritual consciousness developed. At every stage, in this vast process and progress, something new has come, we know not how, into existence. There was a time when matter, life, mind, the soul of man were not; but now they are. Each has arisen as part of a vast scheme planned by God, and the soul of man is the glory of the whole design.

LEGAL WEIGHTS AND MEASURES IN CANADA.

In Canada the law provides, with respect to weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ($437\frac{1}{2}$ grains), one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy.

As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon, containing ten standard pounds weight of distilled water, weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon, commonly known as the "Imperial gallon," contains 277.274 cubic inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

IMPERIAL MEASURE.

Special note should be made of the fact that certain standards of weights and measures used in some of the states of the United States are not legal (though frequently used), in Canada. These standards are not so large, being about 20 per cent. smaller in capacity than the legal standards in Canada, i.e., the Imperial pint, quart and gallon.

The following tables shew the legal weight in Canada of certain commodities by the Barrel, Bushel, Bag, etc.:-

COMMODITIES BY THE BARREL.

Every barrel, half barrel, bag, sack or package must have marked thereon the name of the packer and the brand and the weight of the contents, and in the case of feed, the composition thereof.

	- Net Weight in Dominion Standard pounds.	
	Barrel.	Half-barl.
Flour.....	196	98
Meal.....	196	98
Rolled oats.....	180	90
Rolled wheat.....	100	50

APPLES.

Barrels used for packing apples must be 26 $\frac{1}{2}$ inches between the heads inside measure, 17 inches in diameter at head, and have a middle diameter of 18 $\frac{1}{2}$ inches, containing as nearly as possible 96 quarts. Boxes used for packing apples must be not less than 10 inches deep, 11 inches in width and 20 inches long, representing as nearly as possible 2,200 cubic inches. Every such package (barrel or box), must be marked with the name of the person or corporation doing the packing, the name of the variety and the grade, viz.:- Fancy, No. 1, No. 2, No. 3.

The weight of a barrel of apples varies considerably according to the variety. The standard weight as accepted by the railway companies is 165 pounds. The average would probably be about 155 pounds. This includes weight of the barrel, which is about 15 pounds.

VEGETABLES AND OTHER ARTICLES.

Unless a bushel by measure is specially agreed upon, it must weigh the number of pounds set opposite each article.

Bushels.	Weight in Dominion Standard pounds.
Artichokes.....	56 lbs.
Barley.....	48 "
Beans.....	60 "
Beets.....	50 "
Buckwheat.....	48 "

COMMODITIES BY THE BAG.

A bag of any of the articles mentioned, must weigh the number of pounds set opposite the name of such article.

Bags.	Weight in Dominion Standard pounds.
Artichokes.....	84 lbs.
Beets.....	75 "
Carrots.....	75 "
Onions.....	75 "
Parsnips.....	65 "

POTATOES IN BARRELS, 165 LBS.

A barrel of potatoes shall mean, unless a barrel of specified size, kind or content by measure is agreed upon, 165 Dominion Standard pounds of potatoes.

EGGS.

When eggs are described as sold by the standard dozen, the dozen shall mean one pound and a half.

TABLES OF WEIGHTS AND MEASURES.

AVOIRDUPOIS WEIGHT.

* The North-West Territories were divided on the 1st of January, 1920, into the Provisional Districts of Mackenzie, Keewatin and Franklin.

The following table shows the estimated Areas of the three new Districts worked out from planimeter measurements. The areas of Mackenzie and Keewatin are approximately correct, but the figures for Franklin are not based on any definite topographical information. This district stretches up towards the North Pole:—

RECEIPTS AND PAYMENTS, CANADA, 1920.

Statement of the Receipts and Payments from the Consolidated Fund for the year ending 31st March, 1920.

The receipts from the sources of the ordinary revenue of the country are paid into what is called the Consolidated Fund, and payments therefrom are made to cover the ordinary expenses. These receipts and payments, therefore, constitute what may be considered as the regular income and expenditure of the country, receipts from and expenditure out of loans and all other extraordinary transactions being excluded.

THE INCOME TAX ACT,

WITH AMENDMENTS OF 1918, 1919, AND 1920.

The following is a summary of some of the more important provisions of the Act. The summary is not official and, in case of doubt, persons interested are recommended to write to the Commissioner of Taxation, Finance Dept., Ottawa:—

INCOME.

Section 3 defines income as follows:

(1) For the purposes of this Act, "income" means the annual net profit or gain or gratuity, whether ascertained and capable of computation as being wages, salary, or other fixed amount, or unascertained as being fees or emoluments, or as being profits from a trade or commercial or financial or other business or calling, directly or indirectly received by a person from any office or employment, or from any profession or calling, or from any trade, manufacture or business, as the case may be, whether derived from sources within Canada or elsewhere; and shall include the interest, dividends or profits directly or indirectly received from money at interest upon any security or without security, or from stocks, or from any other investment, and, whether such gains or profits are divided or distributed or not, and also the annual profit or gain from any other source; including the income from but not the value of property acquired by gift, bequest, devise or descent; and including the income from but not the proceeds of life insurance policies paid upon the death of the person insured, or payments made or credited to the insured on life insurance endowment or annuity contracts upon the maturity of the term mentioned in the contract or upon the surrender of the contract, including salaries, etc., of members of the Senate, House of Commons, judges, civil servants, etc., with the following exemptions and deductions:

EXCEPTED INCOME.

- (a) Such reasonable amount as the Minister in his discretion, may allow for depreciation; and the Minister in determining the income derived from mining and from oil and gas wells and timber limits shall make such an allowance for the exhaustion of the mines, wells and timber limits as he may deem just and fair;
- (b) For the purposes of the normal tax only, two hundred dollars for each child under eighteen years of age who is dependent upon the taxpayer for support;
- (c) Dividends received by or credited to shareholders of a corporation which is liable to taxation under the provisions of this Act shall not be liable to the normal tax in the hands of the shareholders, but shall be liable to the supertax and surtax provisions of this Act or any amendment thereto. The amount of the exemption from the normal tax to the shareholder shall not exceed the net amount of such dividends after the deduction of the interest or carrying charges, if any, in respect of such dividends;
- (d) In determining the income no deduction shall be allowed in respect of personal and living expenses, and in cases in which personal and living expenses form part of the profit, gain or remuneration of the taxpayer, the same shall be assessed as income for the purposes of this Act;

(e) Deficits or losses sustained in transactions entered into for profit but not connected with the chief business, trade, profession or occupation of the taxpayer shall not be deducted from income derived from the chief business, trade, profession or occupation of the taxpayer in determining his taxable income;

(f) And the Minister shall have power to determine what deficits or losses sustained in transactions entered into for profit are connected with the chief business, trade, profession or occupation of the taxpayer, and his decision shall be final and conclusive.

HOLDING COMPANIES.

(2) Where an incorporated company conducts its business, whether under agreement or otherwise, in such manner as either directly or indirectly to benefit its shareholders or any of them, or any persons directly or indirectly interested in such company, by selling its product or the goods and commodities in which it deals at less than the fair price which might be obtained therefor, the Minister may, for the purposes of this Act, determine the amount which shall be deemed to be the income of such company for the year, and in determining such amount the Minister shall have regard to the fair price which, but for any agreement, arrangement or understanding, might be or could have been obtained for such product, goods and commodities.

NON-RESIDENTS.

(3) In the case of the income of persons residing or having their head office or principal place of business outside of Canada but carrying on business in Canada, either directly or through or in the name of any other person, the income shall be the net profit or gain arising from the business of such person in Canada.

PROFITS AND DIVIDENDS.

(4) The share of a taxpayer in the undivided or undistributed gains and profits of a corporation shall not be deemed to be taxable income of the taxpayer, unless the Minister is of opinion that the accumulation of such undivided and undistributed gains and profits is made for the purpose of evading the tax, and is in excess of what is reasonably required for the purposes of the business.

(5) Dividends declared or shareholders' bonuses voted after the thirty-first day of December, 1919, shall be taxable income of the taxpayer in the year in which they are paid or distributed.

(6) The income, for any taxation period, of a beneficiary of any estate or trust of whatsoever nature, shall be deemed to include all income accruing to the credit of the taxpayer whether received by him or not during such taxation period. Income accumulating in trust for the benefit of unascertained persons, or of persons with contingent interests shall be taxable in the hands of the trustees or other like persons acting in a fiduciary capacity, as if such income were the income of an unmarried person.

(7) Any part of the remuneration of a taxpayer retained by his employer in connection with an employee's superannuation or pension fund or plan shall be allowed as an exemption or deduction from the income of the taxpayer for income tax purposes, and any payment to an employee out of such fund or plan shall be included as taxable income of the employee.

RATE OF TAXATION.

Section 4 establishes the rate of taxation as follows:

(1) There shall be assessed, levied and paid upon the income during the preceding year of every person,—

(i) residing or ordinarily resident in Canada; or,

(ii) who remains in Canada during any calendar year for a period or periods equal to one hundred and eighty-three days; or,

(iii) who is employed in Canada; or,

(iv) who, not being a resident of Canada, is carrying on business in Canada; or,

(v) who, not being a resident of Canada, derives income for services rendered in Canada, to any person resident or carrying on business in Canada, but only upon that portion of the income so earned by such non-resident, the following taxes:

(a) Four per centum upon all income exceeding \$1,000 but not exceeding \$6,000 in the case of unmarried persons and widows or widowers without dependent children, and persons who are not supporting dependent brothers or sisters under the age of eighteen years, or a dependent parent or parents, grandparent or grandparents, and exceeding \$2,000 but not exceeding \$6,000 in the case of all other persons, and
Eight per centum upon all income exceeding \$6,000.

And in addition thereto the following surtax:

SURTAX.

Sixty-five per centum upon the amount by which the income exceeds \$1,000,000.

CORPORATIONS AND COMPANIES.

(2) Corporations and joint stock companies, no matter how created or organized, shall pay ten per centum upon income exceeding two thousand dollars. Any corporation or joint stock company the fiscal year of which is not the calendar year, shall make a return and have the tax payable by it computed upon its income for its fiscal year ending within the calendar year for which the return is being made.

FIVE PER CENT. ADDITION.

(2a) The several taxes and surtaxes prescribed by subsections one and two of this section are hereby increased by the addition of five per centum of the amount of each of the said taxes and surtaxes payable with respect to any taxable income of \$5,000 or more for the calendar year 1919, or any taxable income of \$5,000 or more for accounting periods ending in the year 1919, as the case may be, and for each calendar year or accounting period thereafter.

PARTNERSHIPS.

(3) Any persons carrying on business in partnership shall be liable for the income tax only in their individual capacity. A husband and wife carrying on business together shall not be deemed to be partners.

(4) A member of a partnership, or the proprietor of a business whose fiscal year is other than the calendar year, shall make a return and have the tax computed upon the income from the business for the fiscal period ending within the calendar year for which the return is being made, but his return of income derived from sources other than his business shall be made for the calendar year.

TRANSFER OF PROPERTY.

(5) A person, who, after the first day of August, 1917, has reduced his income by the transfer or assignment of any real or personal, movable or immovable property, to such person's wife or husband, as the case may be, or to any member of the family of such person, shall, nevertheless, be liable to be taxed as if such transfer or assignment had not been made, unless the Minister is satisfied that such transfer or assignment was not made for the purpose of evading the taxes imposed under this Act or any part thereof.

DEDUCTIONS ALLOWED.

(6) Taxpayers shall be entitled to the following deductions from the amount that would otherwise be payable by them for taxes under the provisions of this Act:

(a) The amount paid by such taxpayer for corresponding accounting periods under the provisions of Part I of *The Special War Revenue Act, 1915*, and any amendments thereto, or *The Business Profits War Tax Act, 1916*, and any amendments thereto: Provided, that in computing the taxable income hereunder the taxpayer shall not include any taxes paid under the said Acts in the expenses of his business, and the Minister shall have power to determine any questions that may arise in consequence of any difference in the several periods for which the taxes under the said Acts, and under this Act, respectively, are payable, and the decision of the Minister shall be final and conclusive. In the case of a partnership, each partner shall be entitled to deduct such portion of the tax paid by the partnership under *The Business Profits War Tax Act, 1916*, and any amendments thereto as may correspond to his interest in the income of the partnership: Provided that such deduction shall not affect the liability of the taxpayer to tax hereunder in respect of any income which does not form part of the profits assessed under *The Business Profits War Tax Act, 1916*, but such income shall be assessed for income tax purposes in the same manner as if it were the only income of the taxpayer.

(b) The amount paid to Great Britain or any of its self-governing colonies or dependencies for income tax in respect of the income of the taxpayer derived from sources therein, and the amount paid to any foreign country for income tax in respect of the income of the taxpayer derived from sources therein, if, and only if, such foreign country in imposing such tax allows a similar credit to persons in receipt of income derived from sources within Canada: Provided, that such deduction shall not at any time exceed the amount of tax which would otherwise be payable under the provisions of section three of chapter twenty-five of the statutes of 1918, or of any amending Act, in respect of the said income derived from sources within Great Britain or any of its self-governing colonies or dependencies or any foreign country; and further provided, that the said deduction shall be allowed only if the taxpayer furnishes evidence satisfactory to the Minister showing the amount of tax paid and the particulars of income derived from sources within Great Britain or any of its self-governing colonies or dependencies or any foreign country.

INCOMES NOT LIABLE TO TAX.

Under the Act certain incomes are not liable to taxation. These are described in Section 5, as follows:

(a) The income of the Governor General of Canada;

- (b) The incomes of Consuls and Consuls General who are citizens of the country they represent and who are not engaged in any other business or profession;
- (c) The income of any company, commission or association not less than ninety per cent. of the stock or capital of which is owned by a province or a municipality;
- (d) The income of any religious, charitable, agricultural and educational institutions, Boards of Trade and Chambers of Commerce;
- (e) The incomes of labour organizations and societies and of benevolent and fraternal beneficiary societies and orders;
- (f) The incomes of mutual corporations not having a capital represented by shares, no part of the income of which inures to the profit of any member thereof, and of life insurance companies except such amount as is credited to shareholders' account;
- (g) The incomes of clubs, societies and associations organized and operated solely for social welfare, civic improvement, pleasure, recreation or other non-profitable purposes, no part of the income of which inures to the benefit of any stockholder or member;
- (h) The incomes of such insurance, mortgage and loan associations operated entirely for the benefit of farmers as are approved by the Minister;
- (i) The income derived from any bonds or other securities of the Dominion of Canada issued exempt from any income tax imposed in pursuance of any legislation enacted by the Parliament of Canada; and
- (j) The income of incorporated companies whose business and assets are carried on and situate entirely outside of Canada.
- (k) Any pension granted to any member of His Majesty's military, naval or air forces for any disability suffered by the pensioner while serving in any of his Majesty's Forces during the war that began in August, 1914, and any pension granted to any dependent relative of any person who was killed or suffered any disability while serving in the said forces in the said war.

Under Section 7 every person liable to taxation shall make a return to the Minister of Finance at Ottawa each year, on or before the 30th of April. Employers shall make a return of all persons in their employ receiving any salary or other remuneration in excess of such an amount as the Minister may prescribe, and corporations, etc., shall make a return of all dividends and bonuses paid. And all persons in whatever capacity acting, having the control, receipt, disposal or payment of fixed or determinable annual or periodical gains, profits or income of any taxpayer, shall make and render a separate and distinct return to the Minister of such gains, profits or income, containing the name and address of each taxpayer. Forms for these returns will be supplied by the Minister of Finance.

PENALTY FOR NOT MAKING RETURN.

Every person required to make a return under subsection one of this section who fails to make a return within the time limited therefor shall be subject to a penalty of twenty-five per centum of the amount of the tax payable, and every other person who is required to make a return under the provisions of this section who fails to do so within the time limited therefor, will be subject to a penalty of ten dollars for each day during which the default continues, and all such penalties shall be assessed and collected from the person liable to make the return in the same manner in which taxes are assessed and collected.

PAYMENT OF TAXES.

Under Amendments passed in 1920 it is provided that all persons when sending in their Income return must pay at least one-fourth of the amount of the tax and surtax, and may pay the balance in three instalments at two, four and

six months with interest at 6 per cent. If the return is found to be incorrect and the error is less than 10 per cent. of the correct income, interest is charged at 10 per cent. on the amount of the error. If the amount of the income omitted exceeds 10 per cent. of the correct income a penalty is charged of one-half of the deficiency, and if the error exceeds 20 per cent. of the correct income the penalty is an additional tax equal to the deficiency. These penalties are additional to any other penalties prescribed by the Act.

Trustees, Assignees, Executors, etc., shall pay all income taxes before distributing any estate, and must obtain a certificate from the Minister that there are no unpaid income taxes against the person, property or estate, before distributing the assets, otherwise such Trustees, Assignees, Executors or similar persons will be personally liable for the amount of the tax.

Under Section 8 the Minister of Finance may ask for additional information and may require the same under oath. Also that the Minister may require the taxpayer to keep adequate books of account.

Section 9 provides for penalties in the event of making default in the sending in of proper returns or of making false statements.

ASSESSMENT.

Section 10 provides for the making of Assessments by the Minister, and the following new clauses were passed in 1920:

(1) If the taxpayer pays as any instalment less than one-quarter of the tax as estimated by him, or should he fail to make any payment at the time of filing his return or at the time when any instalment should be paid, he shall pay in addition to all other penalties a penalty of five dollars or one-quarter of the amount of the tax unpaid, whichever is the greater.

After examination of the taxpayer's return, the Minister shall send a notice of assessment to the taxpayer, verifying or altering the amount of the tax as estimated by him in his return. Any additional tax found due over the estimated amount shall be paid within thirty days from the date of the mailing of the notice of the assessment. If the additional amount is not paid within the said thirty days, then the taxpayer shall pay a penalty of five dollars or one-quarter of the amount unpaid, whichever is the greater.

(2) The Minister, if he suspects that the taxpayer is about to leave Canada, may, for that or any other reason, by registered letter addressed to the taxpayer, demand payment of all taxes, penalties and accrued interest for which the taxpayer is liable, and the same shall be paid within ten days from the date of mailing of such registered letter, notwithstanding any other provisions in this Act contained. Non-payment of the said tax within the specified time shall render the goods of the taxpayer liable to seizure by the sheriff of the city, county or district in which the goods of the taxpayer are situate. A certificate of non-compliance with any such demand, signed by the Commissioner of Taxation, setting forth the particulars of the demand and placed in the hands of the sheriff, shall be sufficient authority for him to seize sufficient of the goods of the taxpayer to meet the said demand.

The sale of such goods, and the disposition of the monies realized, shall be conducted in the manner prescribed by the law of the province in which the goods are situate as if the seizure were made under a writ of execution issued out of the Superior Court of the said province.

Section 11 provides that all information received by the Government is held in secret. Provision is also made for the appointment of Boards for the hearing of complaints against any assessment made.

In case of any further information being required, application should be made to the Commissioner of Taxation, Finance Department, Ottawa.

INCOME TAX RATES AND ESTATES DUTY IN GREAT BRITAIN, 1920-1921.

INCOME TAX.

The Royal Commission on the Income Tax which has been appointed in 1919, with Lord Colwyn as President, reported in March, 1920, and almost all of its recommendations were accepted by the Chancellor of the Exchequer in laying the tax for 1920-21. The changes affected the taxation of earned and unearned incomes, abatements on small incomes and double taxation of incomes by the United Kingdom and a Dominion.

DOUBLE TAXATION.

The recommendation of the Royal Commission was that in case of incomes taxed both in the United Kingdom and in a British Dominion, there should be deducted from the British tax the whole of the Dominion tax where this did not exceed one-half of the amount of the British tax. Where the Dominion tax exceeded one-half, the amount deducted would be one-half of the British tax and it was recommended that the Dominion make the concession of the remaining amount of the double tax. Mr. Chamberlain proposed to give partial relief without waiting for action by the Dominions, and the relief on incomes taxed both in the United Kingdom and in a Dominion is fixed at one-half the five shilling rate—2s. 6d. in the pound. This relief was estimated to cost the Exchequer £2,500,000 for the year, and if the full recommendations are accepted later it will be a further charge on the Exchequer of £2,000,000. No relief is given on incomes taxed both by the United Kingdom and a foreign power.

EARNED AND UNEARNED INCOMES.

An abatement of ten per cent. is established on all earned incomes, and the income deemed assessable, instead of being the whole amount as in the case of investment incomes, is ninety per cent. of the total received, up to an amount of £200. On incomes of £2,000 or more the abatement is limited to £200.

EXEMPTIONS AND ABATEMENTS.

Exemption from income tax is granted to an individual whenever the total assessable income does not exceed £135 (£150 earned, £135 unearned). If a man is married, the exemption is raised to £225. If the wife is also earning the exemption may be increased by £45 or by nine-tenths of the wife's income if below this amount. The exemption for the first child is £36, and for each other child £27 of assessable income. For dependent relatives the exemption is £25, and an exemption of £45 is allowed to either widower or widow in respect of a female relative or housekeeper to take charge of the children.

GRADUATION OF TAXATION

Instead of the older graduated rates of income tax, graduation is arrived at in the present scheme, first by the classification as assessable income, and secondly by charging the first £225 of taxable income—after all exemptions have been deducted, at one-half the standard rate—at 3s. in the pound instead of 6s. Thus a man with £500 of earned income, with a wife, three children and his mother to support will pay £16 10s. income tax :—

A man with £1,000 earned income will pay £164 5s. His exemptions will be the same. He will pay on £225 at 3s. in the pound, and on £435 at 6s. in the pound. There are exemptions allowed in respect of Life Insurance premiums.

THE SUPER-INCOME TAX.

The changes in the income tax were calculated to diminish the yield of the tax by about £18,000,000. To make up the deficit, increases were made in the super-income tax. The level of income on which the tax was paid was lowered to £2,000 instead of £2,500 the former level. The minimum rate was increased from 1s. in the pound, in addition to the standard income tax rate of 6s. to 1s. 6d. The new scale rises from 1s. 6d. on incomes of over £2,000 by graduated steps to 5s. on incomes of £20,000; to 5s. 6d. on incomes of £30,000 and 6s. on incomes over £30,000.

ESTATE DUTY.

There was no change in the rates of estate duty in 1920. The rates as they now stand are as follows :—

Jamaica.	Newfoundland.

When such goods are imported direct from any British country into Canada, or taken out of warehouse for consumption therein, if imported as aforesaid, duties of customs (a) at the rate of four-fifths of the several rates of duties if any imposed on similar goods when imported from any foreign country, or (b) at the several rates of duty if any set opposite to each tariff item respectively in the column British Preferential Tariff in Schedule A to the Customs Tariff 1907, and in any amendment thereof which ever shall be the lower rate, and (c) under the same conditions all goods enumerated in Schedule "C" to the said agreement shall be admitted free.

PROOF OF ORIGIN

- (4) Proof of origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the Custom House for goods admitted to entry under any of the Tariffs in Schedule A; and that the decision of the Minister of Customs shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin;

Provided, that goods for which entry is claimed under the Intermediate Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Intermediate Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be bona fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by labor in one or more of such countries.

DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation

to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(a) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom.

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final;

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council, from time to time suspend the Surtax from application to the goods of any country.

FISH FROM NEWFOUNDLAND

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor-in-Council, by Order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty, under regulations by the Minister of Customs.

DRAWBACK

10. On the materials set forth in Schedule "B" to this Act, there may be paid out of the Consolidated Revenue Fund, the several rates of drawback of Customs duties set opposite to each item respectively in such Schedule, under regulations by the Governor-in-Council.

PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

CANADIAN TARIFF OF CUSTOMS

REVISED TO DATE,

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. - We however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorem*, except when otherwise specified.

* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from The Netherlands, Belgium, or Japan.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from The Netherlands, Belgium, Italy, or Japan.

‡ Items marked thus have the British Preferential rate when the importation is from those colonies that come under the West Indian Trade Agreement Act of 1913.

ADDENDA.

A selection of abridged notes to aid Importers and others with limited experience in Customs business.

Animals, pure bred, for improvement of stock, to be duty free, must be imported under following conditions:—

(a) Owner must be a British subject, resident in the British Empire.

(b) Entry must be accompanied by a certificate stating the animal to be recorded in Canadian National Records or in an accredited Foreign Record. (See dogs, also fowls.)

Automobiles for touring purposes may be brought in by a non-resident of Canada for a period of six months by making a deposit of \$25.00 and giving a bond for double the amount of duty. On proof of exportation the deposit will be refunded. For a period of only one month the deposit and bond are not demanded but the automobile must be duly entered at the frontier port of Customs on approved form in duplicate.

Baggage, wearing apparel, and such articles as are in use and actually accompany persons arriving into Canada and are necessary for the purposes of the journey, may be admitted duty free. It does not apply to merchandise for sale or goods belonging to other persons. Up to 40 cigars and 100 cigarettes may be admitted as baggage. Tools of trade in actual use may also be admitted free.

British Preferential. To secure the British Preferential it is necessary to note that:—

(1) A separate invoice must be furnished for preferential goods.

(2) Invoice must have certificate as to origin of goods.

(3) Goods must be packed separately or not mixed up with other goods,

(4) Goods must come direct or have a through bill of lading.

Cash discount not in excess of 2½% may be allowed off for duty purposes if actually deducted on the invoice. Trade discount should be deducted from both columns on the invoice.

Cattle for exhibition purposes over six months old entering Canada from United States must have a veterinary certificate signed by a veterinary inspector of the United States Bureau of animal industry, stating that they have passed the tubercular test within the last six months, also an affidavit from the importer identifying the cattle entered.

Dogs, pure bred. To obtain free entry the importer must produce a certificate of purity of blood signed by the breeder. He must also make an affidavit that the dogs imported are the identical animals described on the certificate.

All dogs from Great Britain must be accompanied by a certificate, approved by the British Board of Agriculture that the animal has not been exposed to infection.

Deer and Moose. Deer shot for sport by persons not domiciled in Canada may be exported only within 15 days after the "open season." No person in any one year, shall export more than the whole of one moose and three deer, and that in not over two shipments. The exporter must produce the license to a Collector of Customs and sign a declaration as to the quantities and parts exported, the same to be attached to the export entry.

ADDENDA—Continued.

Fowls, pure bred, must have certificate of blood describing the breed and signed by the breeder. Also the following sworn to statement made by the importer, "The fowls now imported and entered by the undersigned, are the identical fowl described in the invoice or entry."

Goods damaged in transit. Collectors may permit an importer to abandon to the Crown any whole package of goods damaged in transit, and be relieved of payment of duty thereon, if notice is given within 14 days of landing or entry of such goods.

Goods perishable and breakable. Collectors are permitted to make an allowance for all damage in excess of 15% as certified to by the appraiser, on perishable and breakable goods such as fruit, crockery and glass, if the claim is made within three days of the arrival of such goods. If duty has been paid on full value of such goods, a refund may be arranged if the claim is made within 14 days and appraisal is made as soon as they can be examined.

Horses, carriage and harness going into the United States may be re-admitted into Canada duty free if they are returned within one year without change of ownership. They must be reported outward in duplicate with such description as to be identified on return. Duty is to be paid on repairs.

Liquor:—No person shall make or manufacture, except for scientific or medicinal purposes, any intoxicating liquor in the Dominion of Canada after the 1st day of April, 1918. After that date also, no person shall directly or indirectly transport or sell any intoxicating liquor.

Machinery valued at not less than \$10.00 when exported for repairs may be re-admitted by payment of duty on the repairs, only if returned within one year, provided further that application was made for outward entry and examination at Customs at time of export.

Milk, Vegetable and Fruit Regulations. The containers of milk, vegetable and fruit products:—

- (a) Are to be marked with the initials, the surname and the address of the packer;
- (b) Must give a true description of the contents;
- (c) Must show the firm No. assigned to the establishment;
- (d) Must be subject to the approval of the Veterinary Director-General as to design of label.

No such goods are admitted into Canada unless accompanied by a sworn declaration from the exporter that the goods are shipped in accordance with the regulations made under the Meat and Canned Foods Act.

Motor cycles as tourist outfit are admitted to entry into Canada for a period of one month under the same conditions as apply to automobiles, when for longer than one month the same conditions apply except a deposit of \$10.00 as a deposit instead of \$25.00.

Oleomargarine:—No person shall import or manufacture oleomargarine without first obtaining a license from the Food Controller of Canada, Department of Agriculture. A record must be kept of all shipments, showing date, quantity, and from whom purchased. All packages must be labelled and clearly marked with the words "Oleomargarine" to the approval of the Food Controller.

Perfecting entries. Sight entries must be perfected as well as entries on Form B1, on which duty is paid, pending production of certificate under Customs regulations for free entry of same, and for which a refund of duty is applied for.

Refund on goods returned not according to order, must comply with the following conditions:—

- (1) Goods are to be identified by Customs.
- (2) Application for refund within one month and export within three months of date of entry.
- (3) Proof of export furnished.

(4) Must be accompanied by export entry in triplicate.

(5) Delivered under Customs supervision.

(6) Copy of waybill signed by carrier, also copy of export entry duly certified to by Customs officer at port of exit must be annexed to refund claim.

Refund on goods damaged in transit, duty having been paid on the entire shipment according to the invoice, it will be necessary to bill the railway or inland carriers for the amount of the duty in addition to the value of the goods. It will then be up to the railway to produce a short landing certificate from the ocean carriers if the goods are from overseas, or a proof that the goods were lost or destroyed beyond the confines of Canada. When this proof is produced it must be attached to the refund claim.

Return of goods not according to order. When it is discovered that goods imported are not according to order, the first step is to write the shipper and request a certificate or Foreign Owner's Declaration, correctly executed, that the goods to be re-exported are of foreign origin. When this declaration has been forwarded and received it must be attached to the export entry accompanying the goods. In the meantime notice of such return and a request for refund must be given the Collector at once or within three months of the date of the entry. On the return of the duplicate copy of the export entry the claim for refund may be made. (See Refund.)

Samples (commercial traveller's), are subject to duty each time of importation. The trunks may be admitted free after paying duty at time of first importation.

Samples of dutiable goods imported direct by non-residents of Canada from any British or French Treaty country may be admitted on deposit of a sum equal to the duty. The importer will make a temporary entry on the face of which he will make the declaration that the goods are samples for use only in taking orders and will be exported within 12 months. Samples to be re-exported must be marked for identification.

Seeds:—All importers of seeds, viz., clovers, grasses, vetches, rape, forage plants, field root, and garden vegetables, in lots of 10 lbs. or more, must submit a sample to be forwarded to the Government Seed Laboratory, Department of Agriculture, Ottawa, for test.

Sight entries are usually occasioned by defective invoices or no invoices at all. They are to be made out in quadruplicate and the value of the importation must be so increased for duty as to be absolutely certain to protect the revenue. On receipt of corrected invoices a claim for refund may be submitted but not after a period of six months, except by permission of the Department.

Special duty exemptions. Special duty does not apply in the case of goods not made in Canada, or when the difference between the home price at time shipped and the price to the Canadian purchaser does not exceed 5% of the home price. Provided, however, the whole difference is to be taken into account for special duty purposes when exceeding 5%. If the home price at time shipped has been subject to sudden inflation the price at time of purchase may be accepted as the fair market value in the application of the duty.

Special duty does apply and without exemption allowance to articles of a class and kind made in Canada, even when admitted free of ordinary duty.

Value for duty is subject to the following general regulations:—

- (1) Home consumption price at time shipped.
- (2) Actual trade discount allowed not to reduce below home consumption price.

ADDENDA—Continued.

- (3) Commission for services rendered in the purchase of goods bought in the name and on the account of the importer and so invoiced and exported shall not usually be held as forming a part of the value for duty when not in excess of 5%. All other commission charges are considered dutiable.
- (4) Price of goods as sold in bond not to be accepted for duty.
- (5) Foreign revenue duties to be added, but foreign export duties not to be added.
- (6) Value must be without condition as to sale.
- (7) Value for duty to be at the distributing point.
- (8) Must be the value on condition ready for shipment.
- (9) Bonus for early delivery must be considered part of value for duty.
- (10) Cash discount not over 2½% is allowed off if actually deducted on invoices.
- (11) Appraisers valuation is to be accepted.
- (12) Articles of different kinds, the highest value is to be taken as the average for duty.
- (13) No allowance off for packages, straw, twine, etc.

Valuation for duty on goods not sold for home consumption may, usually, be determined by ascertaining the total cost of producing the goods in condition ready for market and adding thereto the usual profits made on sales of a similar line of goods.

Waybills must show:—

- (1) Name and address of consignee.
- (2) Marks and number of packages.
- (3) Description of packages.
- (4) When goods are in bulk, the number of pieces, bundles or bushels.
- (5) In case of agricultural instruments, number and description of each class of instruments.

EXCISE TAXES.

ALPHABETICAL LIST OF ARTICLES SUBJECT TO EXCISE TAXES AND LIST OF EXEMPTIONS FROM SALES TAX.

In addition to the present duty of excise and customs a tax of one per cent. shall be imposed, levied and collected on sales and deliveries by manufacturers and wholesalers, or jobbers, and on the duty paid value of importations; that in respect of sales by manufacturers to retailers or consumers, or on importations by retailers or consumers the tax payable shall be two per cent.:

POSTAL INFORMATION

For List of Officials of Post Office Department, see Dominion Government.

War Tax on Letters and Post Cards.

A war tax of one cent each, in addition to postage, is imposed on all letters mailed in Canada, except those which are subject to the postage rate of 5 cents for the first ounce and 3 cents for each additional ounce or fraction of an ounce, and on all post cards bearing written communications mailed in Canada addressed to places in Canada, the United States or Mexico. Letters and post cards subject to war tax on which the tax is not prepaid will be rated up and forwarded subject to collection of double the deficiency from the addressees.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—Besides the Post Cards issued by the Post Office Department, pictorial and other cards of private manufacture duly prepaid by means of postage stamps may be mailed in Canada for delivery within Canada or for transmission to other countries. Private Post Cards for delivery in Canada, U. S. and Mexico, must not exceed a size of 6 inches in length by $3\frac{5}{8}$ inches in width, nor be less than $3\frac{1}{2}$ inches in length by $2\frac{1}{4}$ inches in width. Cards for other countries must not exceed $5\frac{1}{2}$ inches in length by $3\frac{3}{4}$ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

The right-hand half of the face of the ordinary official post cards and of private post cards is to be strictly reserved for the address, postal directions and postage stamps. The left-hand half of the face and the entire back of the card are available for the purposes of the sender, subject to restrictions as to attaching articles to post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

United Kingdom and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

Foreign Countries, except United States and Mexico.—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

United States and Mexico.—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (3 cents, including war tax) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States and Mexico. Only the deficient postage is collected on over-weight letters for the U. S. and Mexico which are prepaid 3 cents.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Belleville, Brantford, Brockville, Chatham, Fort William, Galt, Guelph, Hamilton, Kingston, Kitchener, London, Niagara Falls, Ottawa, Owen Sound, Peterboro', Port Arthur, Sarnia, Stratford, Sault Ste. Marie, St. Catharines, St. Thomas, Toronto, Windsor and Woodstock; in Quebec—Hull, Montreal, Quebec, St. Hyacinthe, Sherbrooke, Shawenegan Falls and Trois Rivières; in New Brunswick—Fredericton, Moncton and St. John; in Nova Scotia—Amherst, Halifax and Sydney; in Manitoba—Brandon and Winnipeg; in Saskatchewan—Moose Jaw, Prince Albert, Regina and Saskatoon; in Alberta—Calgary, Edmonton, Lethbridge and Medicine Hat; in British Columbia—Nanaimo, New Westminster, Vancouver and Victoria; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of

10 etc., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

International Reply Coupons.—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents.

Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, except parcels sent by parcel post to United Kingdom and other countries abroad, ten cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 5 cents in addition to the ordinary postage and registration fees.

Indemnity for Registered Articles.

Domestic.—(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

British and Foreign.—Except in cases beyond control (e.g., tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs (\$10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

1. Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada and posted from the office of publication.

The general postage rate on newspapers and periodicals printed and published in Canada not less frequently

than once a month, mailed by the publishers at the post office in the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication) in Canada, Mexico, the United Kingdom, and (provided they can be forwarded by direct mail steamers or *via* England) in the following British Possessions:—Barbados, Bermuda, British Guiana, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, State of North Borneo, Trinidad and Tobago, Turk's Islands, Union of South Africa (comprising the Provinces of British Bechuanaland, Cape of Good Hope, Natal, Orange Free State and Transvaal), and Zanzibar, is a bulk rate of $\frac{3}{4}$ cent per pound. The following exception, however, is to be noted:—Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, in any city, town or village which has a population of not more than 10,000, are entitled to pass free to regular subscribers and newsdealers in Canada to the extent of a circulation of 2,500 copies per issue within a distance of 40 miles from their place of publication. In all cases the centre of the area for free distribution will be the place of publication. Such newspapers and periodicals may also be delivered free to subscribers at the office at which they have been posted, except in cities where the letter carrier system is established. In the latter case ordinary transient newspaper rates are charged.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 2 cents per pound or fraction thereof. Other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 2 cents per lb.

2. British and Foreign Newspapers posted by Newsdealers in Canada.

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada or Mexico at the rate of 2 cents per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in the United Kingdom and British Possessions as mentioned above, at the bulk rate of 2 cents per pound.

3. Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than Canadian newspapers sent from the office of publication, and British, Canadian and foreign newspapers posted by newsdealers. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the

United Kingdom, or British Possessions as mentioned above, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

To countries other than those mentioned above the rate is one cent for two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

Books, etc.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for British and foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth, but a length of 3 feet 6 inches will be allowed, provided the combined length and girth do not exceed 6 feet; British and foreign: 48 inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage when addressed to places in Canada, New Foundland, the United States and Mexico, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries at the rate applicable to books, etc.:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications), engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards and single post cards without written communications, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers and educational exercises passing between colleges and extra-mural students (written corrections and comments on examination papers and educational exercises may be enclosed with them, but no correspondence is allowed), printers' proof sheets with corre-

tions, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

Circulars are communications in print, or produced by a multiplying process easy to recognise, but not direct from a typewriting machine, which are issued in identical terms to several individuals. A circular may, without becoming liable to a higher rate of postage, have a written date and signature, and may have the name of the addressee repeated in writing inside. Reproductions of imitations of hand or typewritten matter, in order to be accepted as circulars, must be handed in at the post office wicket, in a number not less than twenty identical copies, separately addressed. Failure to comply with either of these conditions will subject the article to letter rate of postage.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

The limit of weight for a packet of miscellaneous matter is 5 lbs., and the general limit of size is 30 inches in length by 12 inches in width or depth, but a length of 3 ft. 6 in. is allowed, provided that the combined length and girth of any packet do not exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public

functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 12 ozs. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 10 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

There must be no writing upon or in any packet of samples, except the address of the person for whom it is intended, the address of the sender, a trade mark or number and the price of the articles, or such words as may be necessary to indicate precisely the origin and nature of the merchandise.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids (except intoxicating liquors), oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States, Mexico, and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the

following rates:—For the United States and Mexico 1 cent for each 2 oz. or fraction of 2 oz.; for the United Kingdom and other countries:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids (except intoxicating liquors), oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Parcel Post in Canada.

Articles of Mail Matter acceptable at Parcel Post rates include farm and factory products, merchandise of all descriptions such as dry goods, groceries, hardware, confectionery, stationery (including blank books, etc.), seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, and all other matter not included in the first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matter.

Parcels containing intoxicating liquors or explosives are expressly prohibited.

The rates of postage on articles accepted for transmission by Parcel Post are as follows:

(a) Five cents for the first pound and 1 cent for each additional pound or fraction thereof, up to four pounds, and 2 cents for each subsequent pound up to eleven pounds within a radius of twenty miles from the place of mailing, irrespective of Provincial boundaries.

(b) Ten cents for the first pound and 4 cents for each subsequent pound or fraction thereof, for all points in the Province in which a package is posted, outside of the twenty mile radius.

(c) Ten cents for the first pound and 6 cents for each additional pound or fraction thereof, for all points outside the Province in which a parcel is posted, and beyond the twenty mile radius, with an additional charge of 2 cents a pound for each Province that has to be crossed to the destination of the parcel, not including the Province in which it is to be delivered up to a maximum of 12 cents a pound.

The three Provinces, Nova Scotia, New Brunswick and Prince Edward Island, are to be considered as one zone.

An additional charge to meet the extra cost of transportation will be made on parcels addressed to or posted at offices in certain outlying districts when such parcels have to be conveyed more than 100 miles by a continuous stage service, such districts to be designated by the Postmaster General.

The charge on any parcel shall not be greater than 1 cent an ounce.

The postage on Parcel Post packets must be prepaid by means of postage stamps securely affixed to the parcels.

An insufficiently prepaid Parcel Post packet is forwarded to destination subject on delivery to payment of double the deficiency, provided at least 1 cent is prepaid. After the additional postage required on any short paid parcel has been collected from the addressee,

"postage due" stamps are to be affixed to the parcel and cancelled by the Postmaster.

Parcel Post packets totally unpaid will be sent to the Branch Dead Letter Office.

Parcels must be prepared for mailing in such manner that the contents can be easily examined.

It is desirable that the sender's address should appear either inside the parcel or on the cover. This must be kept distinct from the address proper.

Parcels are, when re-directed, chargeable with additional postage at the rate which would have been chargeable had they been originally mailed from the office of re-direction to the new address, except in cases where the original and the re-directed addresses are both within the delivery of the same Post Office.

The limit of weight for a Parcel Post packet is eleven pounds, and the general limit of size is thirty inches in length by one foot in width or depth, but parcels will be accepted up to 3 ft. 6 in. in length, provided that the combined length and girth do not exceed six feet.

Further information respecting the domestic Parcel Post regulations is obtainable at any Post Office.

Merchandise for United States.

There is strictly speaking no Parcel Post service from Canada to the United States, but packets of merchandise open to inspection, and not exceeding 4 lbs. 6 oz. in weight, may be posted in Canada for any place in the United States, at the rate of 1 c. for each ounce or fraction of an ounce, to be prepaid by postage stamps. Articles thus sent are subject to customs examination on arrival in the United States, and to the collection of any duty to which they may be found liable.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to countries other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth. There are some exceptions to this rule, as may be ascertained at any Post Office.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed*.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Prohibited Articles.

All explosive, dangerous or destructive substances, intoxicating liquors, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes. Enquiry should be made at the Post Office in regard to transmitting game, raw furs, skins, plumage, etc., by mail.

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Post Office Money Orders.

Money order business has not yet been resumed with Austria, Hungary, Bulgaria, and the countries and places served through those countries, nor with Constantinople and Luxemburg. Money orders may now be issued for payment in Germany and Spain through the intermediary of the British Postal Department.

In view of these facts and also of the fact that the regulations may be still further changed, the usual Table of Foreign Money Orders is omitted from this year's Almanac.

STEAMSHIP AND STEAMBOAT LINES

IN THE DOMINION OF CANADA.

NOTE.—The numbers opposite each line of steamboats correspond with the numbers used in the list of Post Offices and Railroad Stations following. Inasmuch as steamboat lines are not fixed as are railroads but are constantly changing, **this list must be used by shippers and travellers with caution.**

a This mark signifies that the line is subject to interruption by the Seasons—Winter in some parts of the country, low water in other parts; "Daily" means every day except Sunday.

LIST OF RAILROADS IN THE DOMINION OF CANADA,

WITH THEIR TERMINAL POINTS.

Numbered to correspond with numbers used in Third and Sixth columns of pages 171 to 265.

NOTE—The number to the left of the decimal point indicates the Railway system, and the numbers to the right of the decimal point the branch. Thus 535 is the Canadian Pacific Railway system, and 535-37 is the Guelph and Goderich Branch of the C. P. R. For Express Companies see pages 160 to 164. See also list of old and new names of Railways.

For list of Canadians who have had titles conferred upon them, see page 268.

THE KING AND ROYAL FAMILY. THE HOUSE OF WINDSOR.

In deference to the strong antipathy of the British to a German name for the Royal Family, the King in 1917, by Order-in-Council, changed the name of the Royal Family, from the House of Hanover to the House of Windsor.

THE KING.—George V., by the Grace of God of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the seas, King, Defender of the Faith, Emperor of India. His Majesty is the second son of the late King Edward and Queen Alexandra, the elder son, Prince Albert Victor, Duke of Clarence, having died in January, 1892. George V. was born June 3rd, 1865. He married on July 6th, 1893, his second cousin, Princess Victoria Mary Augusta Louise Olga Pauline Claudine Agnes of Teck.

THE QUEEN.—Mary, only daughter of the late Duke of Teck, was born at Kensington Palace, May 26th, 1887, and was married at Windsor to His Majesty, then Duke of York, on July 6th, 1893.

The children of King George and Queen Mary are:—

Prince Edward Albert Christian, Duke of Cornwall, born June 23rd, 1894. He received investiture as Prince of Wales, July, 1911.

Prince Albert Frederick Arthur George, Duke of York, born December 14th, 1895.

Princess Victoria Alexandra Alice Mary, born April 23rd, 1897.

Prince Henry William, born March 31st, 1900.

Prince George Edward, born December 20th, 1902.

Prince John Francis Charles, born July 12th, 1905, died January 18th, 1919.

The surviving children of the late King Edward VII. besides King George V., are:—

Princess Louise, Dowager Duchess of Fife (Louisa Victoria Alexandra Dagmar), born February 20th, 1867; married July 27th, 1889, Alexander William George, Duke of Fife, died 29th January, 1912. Has two daughters, Alexandra, Duchess of Fife, born May 27th, 1891, married October 15th, 1913, Prince Arthur of Connaught; and Maud, born April 3rd, 1893.

Princess Victoria Alexandra Olga Mary, born July 6th, 1868.

Princess Maud Charlotte Mary Victoria, born November 26th, 1869; married 22nd July, 1896, to Charles, second son of the Crown Prince of Denmark, chosen King of Norway, Nov., 1905. Has one son, Olaf.

The surviving children of her late Majesty Queen Victoria are:—

Her Royal Highness Helena Augusta Victoria, born May 25th, 1846; married to H. R. H. Prince Frederick Christian Charles Augustus of Schleswig-Holstein-Sonderburg-Augustenburg, July 5th, 1866; issue three sons, one of whom died an infant, and one died in South Africa, Oct., 1900, and two daughters.

Her Royal Highness Louise Caroline Alberta, born March 18th, 1848; married March 21st, 1871, to the Marquis of Lorne, ninth Duke of Argyll, who died in 1914.

His Royal Highness Arthur William Patrick Albert, Duke of Connaught, born May 1st, 1850; married March 13th, 1879, to Princess Louise Margaret, daughter of the late Prince Frederick Charles of Prussia, died in 1917, and has issue one son and two daughters. Arthur, married Alexandra, Duchess of Fife; Margaret, married Gustavus Adolphus, Crown Prince of Sweden, died 1920, and Patricia, married Commander Ramsay, son of the Earl of Dalhousie.

Her Royal Highness Beatrice Mary Victoria Feodora, born April 14th, 1857; married July 23rd, 1885, to Prince Henry of Battenburg, who died Jan. 20th, 1896; and had issue three sons, of whom the youngest, Maurice, born 1891, was killed in action in France, October 27th, 1914, and one daughter, now Queen Victoria of Spain, married King Alfonso, May 31st, 1906.

The deceased children of her late Majesty Queen Victoria, are:—Edward VII., born November 9th, 1841; succeeded to the throne, January 22nd, 1901, died May 6th, 1910. He married Princess Alexandra of Denmark, March 10th, 1863. On the death of the King, Queen Alexandra took the title of Queen Mother.

Her Imperial Majesty Victoria Adelaide Mary Louisa, Princess Royal, Empress Frederick of Germany, born Nov. 21st, 1840, and married Jan. 25th, 1858, to Frederick, Crown Prince of Prussia, afterwards (March to June, 1888) second German Emperor, who died June 15th, 1888, died August 5th, 1901, and had issue four sons (two deceased), the eldest William, the ex-German Emperor, and four daughters.

Her Royal Highness Alice Maud Mary, born April 25th, 1843; died December 14th, 1878; married his Royal Highness Prince Frederick Louis of Hesse, July 1st, 1862, who died March 13th, 1892; had issue five daughters and two sons; the second son died by an accident, May, 1873; the youngest daughter died November 15th, 1878.

His Royal Highness Alfred Ernest Albert, Duke of Saxe-Coburg-Gotha, born August 6th, 1844; married the Grand Duchess Marie of Russia, January 9th, 1874; died July 30th, 1900; issue, a son, born October 15th, 1874, (died February 6th, 1899) and four daughters, born October 29th, 1875, November 25th, 1876, September 1st, 1878, and March, 1884.

His Royal Highness Leopold George Duncan Albert, Duke of Albany, born April 7th, 1853; married April 27th, 1882, to Princess Helen of Waldeck, and died March 28th, 1884, having had issue one son, now Duke of Albany, who succeeded his uncle, the Duke of Edinburgh, as Duke of Saxe-Coburg-Gotha, on July 30th, 1900, and one daughter.

THE KING'S CIVIL LIST.

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until in 1919, it amounted to £1,115,188, an amount double that granted to the King and Royal Family in the Civil List.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Crown Princess of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List).....	£470,000
Queen Alexandra.....	70,000
Pensions transferred to Consolidated Fund.....	18,000
Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein.....	6,000
Princess Louise, Duchess of Argyll....	6,000
Duke of Connaught.....	25,000
Princess Beatrice (of Battenburg)....	6,000
Duchess of Albany.....	6,000
Total.....	£625,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

CANADIAN RECIPIENTS OF THE "VICTORIA CROSS."

The Victoria Cross (in imitation of the French Cross of the Legion of Honour) was instituted by Queen Victoria at the close of the Crimean campaign, 1856. It is granted to soldiers and sailors of any rank for a single act of valour, the performance of some signal deed of devotion in the enemy's presence. It is a Maltese Cross, made of gun metal, with a Royal Crown in the centre surmounted by a lion and the words "For Valour" indented on a scroll below the Crown. The ribbon is red for the army and blue for the navy. A pension of £10 a year accompanies the decoration.

THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire.

The following Canadians have been made Companions of that Order:—

Babbitt, G. N. Deane, R. B.
 Bell, Dr. Robt. Ewart, D.
 Bennetts, F. K. Fréchette, Achille
 Berneau, Francis C. Gerald, Wm. J.
 Checkley, F. S. Gisborne, F. H.

 Irvine, Lt.-Col. A. G. Parmelee, W. G.
 Jarvis, Lt.-Col. A. L. Pope, Sir Joseph, K.C.M.G.,
 Jarvis, E. F. C.V.O.
 Jones Chas. J. Pottinger, David

Jones, L. K. Ptolemy, W. J.
 LeMoine, J. de St. D. Ross, Geo.
 Loggie, Lt.-Col. T. G. J. Smith, Sidney
 Lynch, Wm. J. Smith, Wm.
 Machin, Henry T. Sutherland, Maj. E. D.
 Mollree, J. H. Taylor, A. G. D.
 MoMichael, S. W. Tully, Kivas
 Montizambert, Frederick Walker, W. H.
 Courtney, J. M., C.M.G. Wolfenden, Lt.-Col. R.

THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order.

THE DISTINGUISHED SERVICE ORDER.

This Naval and Military Order of Distinction was instituted by Queen Victoria, September 6th, 1886, as a means of rewarding individual instances of meritorious or distinguished service in war.

Synopsis of the statutes relating thereto:—

(1) This Order is designated the "Distinguished Service Order."

(2) It consists of the Sovereign, and of such Companions as the Sovereign shall appoint.

(3) The Kings and Queens Regnant of the United Kingdom of Great Britain and Ireland, Emperors and Empresses of India, are Sovereigns of the Order.

(4) No person is eligible for this distinction who does not actually hold, at the time of his nomination, a Commission in the Navy, in Land Forces, of Marines, or in the Indian or Colonial Naval or Military Forces, or a Commission in one of the Departments of the Navy or Army, the holder of which is entitled to Honorary or Relative Rank, nor may any person be nominated unless his services shall have been marked by the especial mention of his name, by the Admiral or Senior Naval Officer commanding a Squadron or detached Naval Force, or by the Commander-in-Chief of the Forces in the Field, in despatches for meritorious or distinguished service in the Field, or before the enemy.

A list of Companions of the Distinguished Service Order (D.S.O.) was published in the CANADIAN ALMANAC for 1920.

(5) Foreign Officers who have been associated in Naval and Military operations with the British Forces are eligible to be Honorary Members of this Order.

(6) Appointment is made by Warrant under Royal Sign Manual, and countersigned by one of the Principal Secretaries of State.

(7) This Order ranks next to and immediately after the Order of the Indian Empire, and the Companions take precedence immediately after the Companions of the said Order of the Indian Empire and shall rank among themselves according to the dates of their respective nominations.

(8) The Badge of the Order consists of a gold cross, enamelled white, edged gold, having on one side, in the centre, within a wreath of laurel, enamelled green, the Imperial Crown in gold, upon a red enamelled ground, and on the reverse, within a similar wreath and on a similar red ground, the Imperial and Royal Cypher V.R.I., and is suspended from the left breast by a red riband, edged blue, of one-inch in width.

(9) The names of these upon whom the decoration is conferred are published in the London *Gazette*, and a registry thereof is kept in the office of the Secretary of State for War.

ORDERS OF KNIGHTHOOD, ETC.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

The Order of the British Empire has four classes—K.B.E., C.B.E., O.B.E., and M.B.E.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

The following is a list of abbreviations used to indicate Honours and Decorations:—

K.G.—Knight of the Most Noble Order of the Garter.
K.T.—Knight of the Most Noble Order of the Thistle.

ADDRESS.—To the Honourable the Senate of the Dominion of Canada, in Parliament assembled.

The Petition of———

Place and date.]

Humbly sheweth.

That, etc,

PARLIAMENTARY REPRESENTATION BY PROVINCES.

The four original Provinces of the Dominion were Ontario, Quebec, Nova Scotia and New Brunswick, which were given parliamentary representation according to Section 37 of the British North America Act, 1867. By Imperial Orders in Council the provinces of British Columbia and Prince Edward Island were admitted into the Dominion, the former on July 20, 1871, by Order dated May 16, 1871, and the latter on July 1, 1873, by Order dated June 26, 1873. An Act of the Dominion Parliament of May 12, 1870 (33 Vict., c. 3), provided for the formation of the province of Manitoba out of Rupert's Land and the Northwest Territories, so soon as these should be admitted into the Dominion of Canada, which admission was effected by Imperial Order in Council dated June 23, 1870, and taking effect on July 15, 1870. In consequence of doubts as to the legal validity of the Dominion Act of 1870 (33 Vict., c. 3), the Imperial Parliament passed an Act in 1871 (34-35 Vict., c. 28), making the Canadian Act valid and effectual. The Provinces of Alberta and Saskatchewan were created by Acts of Parliament (4-5-Edward VII., chap. 3, and 4-5-Edward VII., chap. 42) which became effective September 1st, 1905.

The Presbyterian Church in Canada was formed on June 15th, 1875, in Victoria Hall, Montreal, by the union of the Canada Presbyterian Church; the Presbyterian Church of Canada in connection with the Church of Scotland; the Presbyterian Church of the Maritime Provinces in connection with the Church of Scotland and the Presbyterian Church of the Lower Provinces.

THE BASIS OF UNION WAS IN BRIEF.

1. The Scriptures of the Old and New Testaments, being the Word of God, and the only infallible rule of faith and manners.
2. The Westminster Confession of Faith shall form the subordinate standard of the Church; the Larger and Shorter Catechisms shall be adopted for the instruction of the people.
3. The government and worship of the Church shall be in accordance with the recognized principles and practice of the Presbyterian Church as laid down generally in the form of Presbyterian Church government, and in the Directory for the public Worship of God.
4. (1) This Church cherishes Christian affection towards the whole Church of God, and desires to hold fraternal intercourse with it, in its several branches, as opportunity offers.
(2) This Church shall, under such terms and regulations as may from time to time be agreed on, receive ministers and probationers from other churches, and especially from churches holding the same doctrine, government and discipline with itself.

There are Eight Synods:—

PATENTS IN CANADA.

The Patent Office is attached to the Department of Trade and Commerce, Ottawa.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. Whenever a Patentee is unable to commence or carry on the construction or manufacture of his invention within the two years provided, the Commissioner may at any time not more than three months before the expiration of that term, grant to the Patentee or his legal representatives an extension of the term of two years, on his proving to the satisfaction of the Commissioner that his failure to commence or carry on such construction or manufacture is due to reasons beyond his control. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to

royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but same unless duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far as it has proceeded, with or without plans, at his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, \$60.00; partial fee for 12 years, \$40.00; partial fee for 6 years, \$20.00; for further term of 12 years, \$40.00; for further term of 6 years, \$20.00; on filing caveat, \$5.00; on registering assignment patent, \$2.00; for copy of patent, with specification, \$4.00. When the invention is not susceptible of being patented or where petition therefor is withdrawn, the Commissioner may return the fee paid, less ten dollars.

The disbursements for filing an application in Great Britain are \$25.00; France, \$20.00; Germany, \$5.00, and \$7.50 before issuing patent; Austria, \$20; Russia, \$75.00; British India, \$20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are \$5.00 on filing of the application, \$10.00 on allowance of same and \$25.00 for preparation of the sealing of patent; New Zealand, \$20.00; Mexico, \$75.00; Natal, \$50.00; Japan, \$75.00; Jamaica, \$150.00.

Since the war there have been Orders-in-Council amending the orders and regulations regarding patents, which are as follows:—First Order dated 2nd October, 1914, under which it is provided, that in any case in which through circumstances arising from the present state of war the Commissioner may deem it expedient, he may order that during the continuance of the war, and for six months thereafter, neither the failure to construct or manufacture in Canada any patented invention, nor the importation of such invention into Canada, shall in any way affect the validity of the patent granted in respect of such invention.

Under order dated 2nd October, 1914, it is provided that the Commissioner may order the avoidance or suspension in whole or in part of any patent or license, the person entitled to the benefit of which is a subject of any State at war with His Majesty, and the Commissioner may also in his discretion grant in favor of persons other than a subject of any State at war with His Majesty, license to make, use or vend the patented invention so avoided or suspended. The Commissioner may also extend the time prescribed by the Patent Act or any rules made thereunder, for doing any act or filing any document:

(a) Where it is shown to the satisfaction of the Commissioner that the Applicant, Patentee or Proprietor was prevented from doing such act or filing the said document by reason of active service or enforced absence from the country, or any other circumstances arising from the present state of war, which in the opinion of the Commissioner would justify such extension.

(b) Where the doing of any act would by reason of the circumstances arising from the present state of war, be prejudicial or injudicious to the rights or interests of any Applicant, Patentee or Proprietor as aforesaid.

The Commissioner may also refuse to register the assignment of any patent made by a subject of any State at war with His Majesty, and filed in the Patent Office on or after 4th August, 1914, unless satisfied that such assignment was made in good faith, and not for the purpose of evading any of the provisions of the orders and regulations.

PEACE TREATY.

Under the provisions of the Treaty of Peace (Germany) Order 1920, incorporated in the Dominion Statutes of 1920, provisions are made for the extension of time for the performance of certain acts required under the Patent Laws. Persons interested are advised to refer to this order.

COPYRIGHT IN CANADA.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows:—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The right of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are:—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 6.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts or engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author any literary, scientific or artistic work, or by his legal

representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture:—On registering a copyright \$1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment \$1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An action for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for the use of its members. Sec. 23.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Trade and Commerce, Ottawa.

SUCCESSION DUTIES UNDER THE SUCCESSION DUTIES ACT OF ONTARIO.

Property consisting of real and personal property of every description and every estate and interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs and representatives is subject to Succession Duty, and the value thereof is taken on the basis of the fair market value as on the date of the death of the deceased, less an allowance for reasonable funeral expenses, debts and encumbrances and Surrogate Court Fees.

No duty shall be leviable:—

(a) On any estate the aggregate value of which does not exceed \$5,000.

(b) On property passing by will, intestacy or otherwise to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, daughter-in-law, or son-in-law of the deceased where the aggregate value of the property of the deceased does not exceed \$25,000.

(c) Where the whole value of any property passing to any one person does not exceed \$300.

(d) On property devised or bequeathed for religious, charitable or educational purposes to be carried out in Ontario or by a corporation or a person resident in Ontario or on the amount of any unpaid subscription for any like purpose made by any person in his lifetime to any corporation or person mentioned in this subsection for which his estate is liable.

(e) On any bond, debenture or debenture stock issued by a corporation having its head office in Ontario, transferable on a register at any place out of Ontario and which is owned by a person not domiciled at the time of his death in Ontario.

No duty shall be payable in respect of any property:—

(a) Given absolutely more than three years before the death of the donor to a child, son-in-law or daughter-in-law, or to the father or mother of the donor to the value or amount of \$20,000 in the aggregate to said persons.

(b) Given by the donor where the gift is proved to have been absolute and to have taken effect in the lifetime of the donor and to have been part of his ordinary and normal expenditure and to have been reasonable, having regard to the amount of his income and the circumstances under which the gift was made; of which property actual and *bona fide* possession and enjoyment shall have been assumed by the donee immediately upon the gift and thenceforward retained to the entire exclusion of the donor or of any benefit to him, whether voluntary or by contract or otherwise.

Nor in respect of property:—

(c) Given by the donor in his lifetime and not exceeding in value the sum of \$500 in the case of any one donee, or

(d) Actually and *bona fide* transferred for a consideration in money or money's worth paid to the transferor

for his own use and benefit, except to the extent, if any, to which the value of the property transferred exceeds that of the consideration so paid.

Subject to the above the following duties are payable:—

1. Where the aggregate value of the property exceeds \$25,000, and any property passes in manner hereinbefore mentioned, either in whole or in part to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, son-in-law, or daughter-in-law of the deceased, the same or so much thereof as so passes, shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value:

(a) Exceeds \$25,000 and does not exceed \$50,000, 1 per cent.

(b) Exceeds \$50,000 and does not exceed \$75,000, 2½ per cent.

(c) Exceeds \$75,000 and does not exceed \$100,000, 3½ per cent.

(d) Exceeds \$100,000 and does not exceed \$150,000, 5 per cent.

(e) Exceeds \$150,000 and does not exceed \$200,000, 5½ per cent.

(f) Exceeds \$200,000 and does not exceed \$300,000, 6 per cent.

(g) Exceeds \$300,000 and does not exceed \$400,000, 6½ per cent.

(h) Exceeds \$400,000 and does not exceed \$500,000, 7 per cent.

(i) Exceeds \$500,000 and does not exceed \$600,000, 7½ per cent.

(j) Exceeds \$600,000, and does not exceed \$700,000, 8 per cent.

(k) Exceeds \$700,000 and does not exceed \$800,000, 8½ per cent.

(l) Exceeds \$800,000 and does not exceed \$900,000, 9 per cent.

(q) Exceeds \$3,000,000, 13 per cent.

5. The additional duty provided for by subsections 2 and 4 shall be payable on the property in Ontario, where the deceased dies domiciled elsewhere than in Ontario, but for the purpose of fixing the rate of such duty the beneficial interest in property out of Ontario passing to the successor or other person on the same death shall be added to the value of the property in Ontario, and nothing in this Act shall be construed to impose any duty, directly or otherwise, on property out of Ontario owned by any deceased person so domiciled.

6. Where the aggregate value of the property exceeds \$5,000 and any property passes in manner hereinbefore mentioned either in whole or in part, to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above mentioned or to or for the benefit of any stranger in blood to the deceased, the same or so much thereof as so passes shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

(a) Exceeds \$5,000 and does not exceed \$10,000, 7½ per cent.

(b) Exceeds \$10,000 and does not exceed \$50,000, 12½ per cent.

(c) Exceeds \$50,000 and does not exceed \$100,000, 15 per cent.

(d) Exceeds \$100,000 and does not exceed \$200,000, 17½ per cent.

(e) Exceeds \$200,000 and does not exceed \$300,000, 20 per cent.

(f) Exceeds \$300,000 and does not exceed \$400,000, 22½ per cent.

(g) Exceeds \$400,000 and does not exceed \$500,000, 25 per cent.

(h) Exceeds \$500,000 and does not exceed \$600,000, 27½ per cent.

(i) Exceeds \$600,000 and does not exceed \$700,000, 30 per cent.

(j) Exceeds \$700,000 and does not exceed \$800,000, 32½ per cent.

(k) Exceeds \$800,000, 35 per cent.

Every person applying for Letters Probate or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within six

months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified containing a full inventory in detail of all the property of the deceased and the fair market value thereof at the date of his death as well as showing every person to whom the same passed with their places of residence and degree of relationship in which they stand to the deceased. Provision is also made for subsequent collection of duty on any property not disclosed therein. The provisions of the Act apply to transfers of property other than for valuable consideration made since 1st July, 1892.

Property outside as well as that within Ontario must be set out and if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property will be allowed.

No foreign executor can assign or transfer any bond, debenture, stock or share in any bank or other corporation having its head office in Ontario, standing in the name of the deceased person until the duty has been paid and if such bank or corporation permits same it shall be liable for said duty.

The duty may be paid within eighteen months after the death of the deceased without interest, but if not then paid, interest at five per cent per annum will be charged from date of death until the duty is paid. Instead of paying duty security may be given therefor to the satisfaction of the Provincial Treasurer. The executor is prohibited from paying or handing over any property to any of the beneficiaries until payment of duties, but should he do so the duty thereon with an additional rate of fifty per cent. is recoverable against him. Each beneficiary is liable for the duty upon the property passing to him. Power is given to any person liable to pay duty to raise same by sale, mortgage, or lease of the property vested in him or under his control.

The Provincial Treasurer has power to remit duty in cases of persons killed while on active military or naval service.

There are a number of provisions in the Statute as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof and it would be generally advisable to consult a Solicitor to prevent complication and delay.

THE TORONTO GENERAL TRUSTS CORPORATION

Established in 1882, was the first trust company in Canada. It is absolutely free from affiliation with other financial concerns—a trust company confining itself to the business of executor, trustee or agent and eliminating from its transactions everything of a speculative character. The total value of estates, etc., under its administration now exceeds One Hundred Million Dollars, one half of which has accumulated during the last seven years. All investments made by this Corporation are restricted to “Trustee Securities” as authorized by law. The Toronto General Trusts Corporation solicits the appointment of Executor and Trustee of your Will, offering the above advantages combined with years of experience in estate management.

THE LAW OF INTESTATES ESTATES, PROVINCE OF ONTARIO.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of three years (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

<i>If the Intestate die leaving:</i>	<i>His representatives take in the following proportions:</i>
Wife and child or children..... THE BRITISH GOVERNMENT.

The election of December 14th, 1918, the results of which were announced on December 28th, gave a majority to the Coalition Government of 273. A new Coalition Administration was formed, the plan adopted during the war of having a Cabinet of five members being retained. In October, 1918, there was a re-arrangement of the Ministry, and the pre-war system of Cabinet Government was restored, with a Cabinet of twenty members. Two new Ministries were introduced into this Cabinet—the Ministry of Health, which is the transformed and newly-named Department succeeding the old Local Government Board, and the Ministry of Transport. The Postmaster General, the Chancellor of the Duchy of Lancaster, the Attorney-General and the First Commissioner of Works, who have been occasionally included in the Cabinet, were not invited by the Premier to become members of the new Cabinet. Mr. Arthur J. Balfour, who was made Lord President of the Council, is the first commoner to hold this office since the days of Queen Elizabeth. Mr. Andrew Bonar Law, Lord Privy Seal, became leader of the House of Commons, an office always previously held by the Prime Minister, when he was not of the House of Lords. There were several changes in 1920, but no reorganization of the Ministry.

The election of 1918 was fought on the cry that to Lloyd George, who had carried the war to a successful conclusion, rightfully belonged the task of reorganizing for peace. The tremendous majorities given to the coalition candidates in December, 1918, had shown signs of crumbling away in the by-elections of 1919. In 1920 the process of crumbling continued, and before the end of the summer there were persistent demands for another general election which should return a Parliament more responsive to the opinions of the people. In the by-elections the Liberal Party did something to rehabilitate itself after its sweeping defeats during and after the war, especially through the return to Parliament of Mr. Asquith at the Paisley election in February. The greatest advantages accrued, however, to the Labor Party.

A vacancy in South Norfolk in July, caused by the succession of the sitting Coalition Member to the peerage, resulted in a spectacular victory for Labor. At the general election the Coalition candidate had been returned by a vote of 11,755. There was a three-cornered fight at the by-election and the vote stood:—Labor, 8,594; Coalition, 6,476; Liberal, 3,718. This victory made the fifth which had been won by Labor from the Coalition since the general election. During the same period the Liberals won four seats from the Coalition and one Coalition seat was lost to an Independent.

In spite of the uneasiness and discontent in the constituencies, the House of Commons showed no desire to overthrow the Government. The difficulties encountered by Lloyd George were tremendous, especially in regard to Ireland. The Labor Party was not prepared to assume the cares of office, even had it been able to command a majority, and the Liberal Party still occupied the third place—after Labor—in regard to its strength in the House of Commons. The only possibility for the country therefore was to allow Lloyd George to continue in power, and as the year advanced the Premier appeared on the whole to have strengthened rather than weakened his position as compared with the close of 1919.

It may be interesting to add that the voting strength of the House of Lords in February 1919, when Parliament assembled for its first session, was 678. The total number of members was 699, of whom twenty were minors. Two peerages were held by the same man, and there was then one contested succession. Of these 699 members, 26 were spiritual peers, archbishops and bishops, 625 hereditary peers, 16 Scotch representative peers, elected for the Parliament; 28 Irish representative peers, of whom one also held a British peerage, and 5 life peers.

THE OFFICE OF PRIME MINISTER.

Prime Minister—Rt. Hon. David Lloyd George.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition, the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

THE TREASURY.

Chancellor of the Exchequer—Rt. Hon. Austen Chamberlain.

First Lord of the Treasury—Rt. Hon. David Lloyd George.

Financial Secretary to the Treasury—Rt. Hon. Stanley Baldwin.

Joint Parliamentary Secretaries to the Treasury—Lord Edmund Talbot, Capt. Fred. E. Guest.

Lords Commissioners of the Treasury—Col. R. A. S. Sanders, J. Parker, J. Towyn Jones, Sir William Sutherland.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the

rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Rt. Hon. Earl Curzon.

Under Secretary—Hon. Cecil Harmsworth.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Rt. Hon. Viscount Milner.

Under Secretary—Col. L. C. M. S. Amery.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstituted, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Rt. Hon. E. S. Montagu.

Under Secretary—Lord Sinha.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Rt. Hon. Edward Shortt.

Under Secretary—Major J. L. Baird.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Rt. Hon. Winston Churchill.

Under Secretary—Viscount Peel.

Parliamentary and Financial Secretary to the War Office—Rt. Hon. Sir Archibald Williamson.

Under Secretary of State for Air—Marquess of Londonderry.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval. At the close of the war the Air Ministry was made part of the War Department with an Under Secretary of State at its head.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. Walter Long.

Civil Lord of the Admiralty—Earl of Lytton.

Secretary to the Admiralty—Col. Sir James Craig.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE MINISTRY OF SUPPLY.

President—Lord Inverforth.

Parliamentary Secretary—Mr. James Fitzalan Hope.

The Ministry of Munitions was created during the war by an Act of Parliament which bestowed on it the power and duty of organizing private industry for the production of naval and military munitions; of inspecting munitions made by private contractors and of placing contracts and arranging for their execution. At the end of the war it became the Ministry of Supply.

THE BOARD OF EDUCATION.

President—Rt. Hon. Herbert A. L. Fisher.

Secretary—Rt. Hon. J. Herbert Lewis.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the

Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE MINISTRY OF HEALTH.

President of the Ministry of Health—Rt. Hon. Dr. C. Addison.

Parliamentary Secretary to the Ministry of Health—Viscount Astor.

The Ministry of Health came into existence on July 1st, 1919. It then took over the functions of the Local Government Board in connection with the administration of the poor law and of the laws affecting local government, with enlarged powers as regards public health. It also took over from the National Health Insurance Commissioners the administration of the National Insurance Acts. Its first staff included two permanent secretaries, a controller and a deputy controller of health, who were in charge of the insurance department, and eleven assistant secretaries. A new office under the Minister of Health was that of Government Actuary, filled in the first place by Sir Alfred Watson.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Sir Robert Horne.

Parliamentary Secretary to the Board of Trade—Mr. W. C. Bridgeman.

Secretary of Department of Overseas Trade—Rt. Hon. F. G. Kellaway.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The importance and range of work of the Board of Trade have been greatly increased since the War. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

Postmaster-General—Rt. Hon. Albert H. Illingworth.

Assistant Postmaster-General—Rt. Hon. Herbert Pike Pease.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 is worked partly through the Post Office, as is also the Old Age Pension Act of 1908.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Lord Lee.

Parliamentary Secretary to the Board of Agriculture—Col. Sir A. Griffith-Boscawen.

The principal duties of this Department before the war was the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad. With the war came the necessity of increasing production, and the Board of Agriculture took a much wider scope. It

undertook research and experiment, and made campaigns of education for the best use of the land. During the war it had supervision of all farming operations, and of the administration of the laws penalising misuse or underuse of the land.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Rt. Hon. Sir Alfred Mond.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Viscount Sandhurst.

Treasurer—Col. B. M. Eyres Monsall.

Comptroller of the Household—Lt. Col. George F. Stanley.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Lord Lieutenant of Ireland—Viscount French of Yprès.

Lord Chancellor of Ireland—Sir James H. M. Campbell.

Chief Secretary for Ireland—Rt. Hon. Sir Hamar Greenwood.

Secretary for Scotland—Rt. Hon. Robert Munro.

Lord Advocate—Rt. Hon. T. B. Morison.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

OFFICERS OF THE HOUSE OF COMMONS.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1919. Mr. J. H. Whitley, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert is Clerk of the House (salary £1,800); Admiral Sir Colin Keppel, Sergeant-at-Arms (salary £1,000).

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834.

Salaries of Ministers are fixed by Act of Parliament, but each Minister is to do as he pleases with his salary. During the war Ministers agreed to pool their salaries, which differ in amount, and to divide equally—an arrangement which gave each Minister about £4,500. The pooling arrangement excited some discussion and led to a proposal that there should be a general revision of Ministers' salaries. In July, 1919, a bill was introduced to raise the salaries of all ministers receiving less than £5,000 to this level. It met with strong opposition on account of the state of the National Finances. A vote taken on August 6th, showed 178 in favour, 85 opposed, and 130 not voting. The bill was postponed until the autumn session, when a new arrangement was made by which most of the salaries, but not all, were increased to £5,000.

BRITISH CUSTOMS DUTIES.

In 1919, for the first time since the sweeping away of the old Colonial System in 1846-49, a system of preferences for products of all British Possessions was introduced into the British Fiscal System. The preference was not announced as a general trade policy, but was introduced to give effect to a declaration of the Imperial War Cabinet made in 1917. The articles affected include tea, coffee, cocoa, tobacco, wines and spirits, and in general the concession was one sixth off the ordinary duty. Where excise duties are levied on similar products of British origin a similar reduction is made in the excise duty.

THE BRITISH ARMY.

There was no attempt in 1920 to return to the pre-war form of Army Estimates with the detailed plan of expenditures of all kinds. The Estimates as published on February 22nd gave only the barest outline of the needs of the army, the cost of which for 1920-21 was placed at £125,000,000. It was impossible, Mr. Winston Churchill explained on February 23rd to the House of Commons, to give these details because the army was not yet on a peace footing and the violent fluctuations in prices and costs made estimates futile. The per capita cost of the army as reckoned in February was 2½ times what it was before the war, and an expenditure of £83,000,000 was therefore only equal to pre-war expenditure of £28,000,000. Mr. Churchill asked for a vote on account of £75,000,000.

CONSCRIPTION ENDED.

Conscription, introduced during the War, came to an end on March 31st, 1920. On March 15th, according to a statement made by Sir A. Williamson, Parliamentary Secretary to the War Office, there were still 73,000 men awaiting demobilisation. The whole number of British troops at home and abroad at that time was 380,310, distributed as follows:—

On passage.....	8,000	8,000
Totals.....	289,108	18,131	73,071	380,310

Up to the same date the number of other ranks discharged from the Army (including the Royal Naval Division) since the Armistice was 208,818, and the

number transferred to Class Z of the Reserve was 3,073,096.

The approximate number of Indian troops chargeable to the Imperial Exchequer are as follows:—

France and Flanders.....	500
Black Sea	16,000
Egypt.....	48,000
Mesopotamia	67,000
Aden and other garrisons.....	6,156
	137,656

In the meantime the War Department had had to raise and organize a completely new army, and had recruited 220,000 troops exclusive of those serving in India. "We have," said Mr. Winston Churchill on February 23rd, "completely relieved the whole garrison of India and all the other foreign garrisons, permanent or temporary, and we have replaced them by new troops properly organized in regiments, batteries and battalions. In other words, we have recruited in a single year what is, broadly speaking, the pre-war Regular Army, and we have organized the additional troops which are needed to discharge our temporary and new liabilities. Most of the recruits had enlisted for seven years."

WINDING UP THE WAR.

The winding up of the War was reviewed by Sir Archibald Williamson. "From August, 1914, to December 31st, 1919," he told the House of Commons, "the sum of £3,800,000,000 had been dispensed. The work connected with demobilisation, the settling of individual accounts, gratuities, the re-assessment of service pensions, the estates of deceased soldiers, etc., has been colossal. The Army Pay Department has the task of issuing payments to demobilised men for their period of furlough, which during 1919 rose to over 3,000,000 payments weekly. It also had to settle their accounts, including payment of war gratuities, clothing allowances and other terminable credits. In addition the war gratuities of several millions of men discharged before the termination of hostilities had to be assessed and paid, and war gratuities due to the estates of deceased soldiers had also to be assessed and notifications sent." The number of staff employed in the Army Pay Offices touched high-water mark in March, 1919, when it reached a total of 53,277. Between then and February 23rd, 1920, 25,000 had been discharged, and by March 31st the number was reduced to about 10,000.

DISPOSAL OF WAR MATERIALS.

Between the close of the War and March, 1920, the Department of the Quartermaster General had had the enormous task of changing over the Department from an organization feeding and clothing over 5,000,000 men and providing fodder for 1,000,000 animals to a peace time basis. On the date of the Armistice Great Britain had 1,300 miles of standard gauge railways in situ and 1,700 miles of 60-centimetre railways. It had also six railway workshops and four railway store depôts, with stores to the value of about £7,000,000. Stores, including Air Force material, to the value of £99,637,000 had been brought to the United Kingdom, £26,000,000 for disposal, £65,000,000 for permanent Army requirements, £3,000,000 for return to railway companies and for the use of the Ministry of transport.

The Army had in March, 1920, only 140,000 horses and mules. Of these 15,000 were boarded out in the United Kingdom under the Territorial boarding-out scheme. Up to December 31st, 1919, 344,000 Army horses had been sold, and realised £19,000,000, and of these 120,000 were sold in the United Kingdom, and realised £4,800,000.

While at the time of the Armistice the Royal Army Service Corps stood at 11,534 officers and 314,824 other ranks, the present strength is 3,587 officers and 36,764 other ranks.

THE NEW ARMY.

Looking to the future Mr. Churchill then outlined the military organization that the Government was trying to establish on a voluntary basis for Imperial defense. "Broadly speaking," he said, "we are reproducing the pre-war army and its reserves with the additional improvements suggested by the war. The same number of units have already been re-created, and they will be distributed in accordance with the unshakable Cardwellian system—half abroad and half at home. The units at home will supply the units abroad in time of peace with drafts; the units abroad will secrete the reservists, who, on mobilisation, will raise the units at home to full war strength. The units at home will be organized to form the old Expeditionary Force of six infantry divisions and one cavalry division, and this force will be the central reserve of the British Empire, available to be sent as a reinforcement in time of trouble to any quarter of the world. Behind each line battalion of the Regular Army there will be a third Militia battalion, which will discharge the function hitherto discharged by the Special Reserve and Extra Special Reserve battalions, namely, of supplying drafts for the Regular battalions when sent out of the country in time of war. These 74 Militia battalions may become capable at the end of the first few months of war, if and when other draft-producing machinery has been called into existence, of taking the field themselves as a reinforcement and expansion of the Regular Army. They may, in fact, become six additional divisions, to be developed as war proceeds behind the Regular divisions. These Regular, Reserve and Militia forces constitute the first line of the British Army. We hope that the second line will be composed of fourteen Territorial divisions, with a Yeomanry or cavalry division. They will be organized so as to be a replica of the Regular division. They will not be liable to be embodied unless and until the Army Reserve has been called upon by proclamation to meet a great emergency, and will not be liable to be sent out of the country unless after it has been embodied a special Act of Parliament is passed authorizing its departure. In the first instance it will provide for the internal security of this country after the Regular Army has gone overseas, and thus ensure to our Regular Army that power of immediate movement which is indispensable to the discharge of its functions in defending the Empire. Apart from the Militia battalions, the Territorial Army will be the normal means of expansion of the British National forces. In time of war arrangements will be made for each Territorial division to throw off the cadre of a second division upon which the manhood of the country may form, either by a voluntary or compulsory basis, as Parliament may decide. In the light of existing circumstances, until Parliament passes a general National Service Act, men in the Territorial Army will enjoy the privilege of serving in their own units."

IN CASE OF WAR.

"If all goes well in a supreme emergency, such as occurred in August, 1914, we shall be able to provide, complete in all details, one cavalry division and six divisions of regular infantry immediately, and in the course of the next few months one yeomanry division and 14 divisions of the Territorial Army. Behind these divisions there will be the at present paper cadres, capable of calling into being during a great war another 20 divisions, and for the first portions of those forces we shall have sufficient ammunition and equipment of all kinds to supply their requirements for six months, and during those six months our industries will have to be turned over from a peace to a war basis. I have said nothing of any assistance that could be rendered by the forces in the Middle East, because we propose that those garrisons shall be reduced to the barest minimum compatible with local security, and if trouble arises reinforcements will have to be sent from home and from India, where there will be certain forces disposable for a general Imperial need. The discussion of that matter, however, is proceeding between the War Office and the India Office. Later in the session I may be able to make some statement about it. The same applies to the Dominions. They are contemplating reproducing a considerable number of divisions from their fine military material, but from the adjustment of our relations with them I may be able to make some statement about it. The arrangements which I have described may sound imposing, but if all is carried out as we intend, and if the response of recruits is what we hope, our military power will not be numerically greater than before the war. For some years, no doubt, we shall have a large latent reserve of trained manhood, and for a still longer period we shall have an ample accumulation of war material. Moreover, Germany cannot become a formidable military Power for a number of years. France is organizing a large conscript army, and Belgium, whose military forces are being greatly increased on a compulsory basis, is another country bound to us by ties of friendship and interest, which it is probable will be embodied in a military arrangement. Therefore, for the time being there can be no imminent danger in Western Europe. But a day may come when our reserves of war for trained manhood will have grown old, and our war stores be used up or become obsolete, and if that period coincides with the revival of the military strength of Germany, or of Germany and Russia combined, these arrangements which I have described today will require drastic and timely revision."

THE VOLUNTARY SYSTEM.

"Alone among nations," continued Mr. Churchill, "Britain has abolished conscription. It is a tremendous decision, which the Government and Parliament, and people, have taken together. There are many countries where a national army on a compulsory basis is the main foundation of the State, and is regarded as one of the most important safeguards of democratic freedom. It is not so here. On the contrary, the civil character of our Government and institutions is one of the most deeply cherished convictions in our island life. I can testify that the military authorities have loyally accepted the decision of the nation, and that they are doing, have done, will do their best to make a success of the voluntary system. It would be dangerous, however, to demand this immense relaxation of national effort and organization, and to exult in the individual freedom which follow from it, unless there is a frank recognition of the consequent limitations upon our military power, and unless these limitations influence our policy. It is no use expecting a powerful, perfect, symmetrical, cheap, military organization on the voluntary system, or that forces can be provided by it which will correspond to the part which we are likely to wish to play in the world, or to military contingencies which may arise. We are not in the position to ask the question—What are our dangers and what forces do we require to meet them? All we can say is—Here are certain forces to which our people have been accustomed by traditions which have their roots in the country, which attract from year to year a measure of support and a proportion of recruits. We will do the best we can with these forces to

discharge our duties to the British Empire, and should a great emergency arise, we must trust to the Fleet and to the air to give us time to bring the might—the irresistible might as it has been proved—of Britain into the field.”

THE SOLDIER OF THE FUTURE.

“Essentials for the future of the Army,” stated Mr. Churchill in an additional memorandum, “are that it should be better paid, better educated, be thoroughly efficient and up-to-date, well housed, contented and equip itself for civil life on discharge.” The average pay and allowances, including the value of rations, of the private soldier, as allowed for in the Estimates, was 47s. a week if unmarried, and 80s. a week for the married man with two children. Each private was to be given a thorough education. The subjects taught included carpentering, painting, glazing, agriculture, as well as shorthand, type-writing, and mechanical training. Courses were also provided in commerce, accounting, chemistry, electricity and engineering.

PROMOTION FROM THE RANKS.

Part of the education is directed to training a man for industries or trades, and part with the desire that men should have that general knowledge which would qualify them to become officers. The scheme of reorganization provides for the promotion of men in the ranks and makes feasible the securing of commissions. This provision was inevitable as a result of the war during which between 50 and 60 per cent. of the officers were men who had served as privates. “It may not be necessary” wrote the *Manchester Guardian* in commenting on this part of the reorganization scheme, “to follow the example—which was brilliantly successful—of the Australians and draw all officers from the ranks; for a good school or university O.T.C. may give an extremely good early training for command. But the war, in the more strenuous part of which more than nine-tenths of our officers were former privates, should leave it the normal thing for an officer to have served in the ranks, and all cases of the grant of a commission without such service should be understood as needing individual justification.”

THE BRITISH ARMY AIR SERVICE.

The Air Service forms a sub-department of the War Department and is under the direction of the Marquis of Londonderry, Under-Secretary of State for Air. The Estimates for this service for 1920-21 amounted to £22,829,619. Of this gross total £1,004,282 was asked for civil aviation and £1,556,540 for experimental and research services to develop programmes which have not yet fully matured. Included in the civil aviation appropriation is a sum of £130,701 for meteorology. The whole meteorology service of the British Government was transferred to the Air Service and amalgamated with a service in meteorology which had been operated by the Royal Air Force. Another item in the estimates was £170,000 for the provision of an aeroplane squadron, with necessary repair and replacement facilities, for the Army of Occupation on the Rhine. The cost of this squadron will ultimately be repaid direct to the Imperial Exchequer by Germany.

“I favor,” said Mr. Winston Churchill on February 23rd, when explaining the Army Estimates, “the steady increase of the Air Force at the expense of the Army and Navy, and I believe that will be the tendency year by year, but I am sure that any such increase will only take place in proportion as the Air Force is actually able to discharge blocks of day to day duty which are in fact now discharged by the Army. I am very anxious to give the Air Force an opportunity of substituting their power for military power wherever substantial economy can be assured, and provided the work can really be done. We have had an example of the possibilities of the Air Force in the Somaliland campaign, which at a cost of £30,000 achieved much more than we were able to achieve in one expedition before the war after an expenditure of 2½ millions. That campaign was particularly interesting, because it was the first time where the Air Force was in command, and the military, or ground force, and a sea force co-operated under the general direction of an aerial commander.”

COST OF AIR SERVICES.

Major Tryon of the Air Department went into a detailed explanation of the Air Estimates in the House of Commons on March 11th. He emphasized the value of the Service in peace time in bringing the whole scattered British Empire closer together. “Within a few days of the Armistice,” he said, “the Air Force had begun to explore and prepare the air route from Cairo to the Cape. These air routes of the Empire raised questions of commercial strategy.”

“During the war,” he continued, “the air expenditure rose to about £1,000,000 a day. Last year the cost was £54,030,850. This year the estimated cost was £21,056,930, a reduction in 12 months of nearly £33,000,000.”

“Included in the estimated expenditure of £22,829,619, there was a net charge for war liabilities of £5,883,500, and also two important services which in war time were not chargeable to the Air Ministry, namely, civil aviation and the research work carried on during the war by the Ministry of Munitions. These new and important branches necessarily added to the cost and the work of the Air Ministry. Moreover, the Ministry had taken over the meteorological service, and this transfer accounted for a further increase of £50,000. The work of this office was obviously a national work concerning not only the air but a great many other branches of our national life. There were also minor items, shown last year under different votes, which now appeared under the Air Ministry Vote, and amounted to about £12,000.”

AIR SERVICE ON A PEACE FOOTING.

The Department of the Chief of the Air Staff as organized in 1920 under Air Marshal Sir Hugh Trenchard, included operations, intelligence, training, organization, personnel, equipment, medical services, and other branches, including works and buildings. After paying a tribute to the unceasing devoted labours of the staff of all ranks of the Royal Air Force, Major Tryon indicated the constructive work which had been carried through, while at the same time the reduction of the Force from a war to a peace footing had gone on most rapidly. “There were on March 31st last year 22,000 officers in the Royal Air Force. At the end of March, 1920, there would be 3,280. The normal strength of officers was 2,850, so that they were almost at the normal level. In the case of other ranks, there were a year ago 160,000; by the end of this month, unless shipping difficulties delayed matters, there would be only 25,000 left, the normal peace strength being 23,300. There were a year ago 14,000 civil subordinates, and there were now 6,000, including ladies. A year ago there were 22,000 women in the Women’s Royal Air Force, and at the end of March, 1920, this force would come to an end. Therefore, from a total of 164,000 in March, 1919, they should at the end of this month have come down to 34,280, and the normal strength was 31,500, so that the total reduction effected in the period was 129,720, a very remarkable reduction. The Royal Air Force had given up 149 aerodromes, 122 landing grounds, and 2,240 of what were known technically as hirings, as a rule land and buildings.”

CALLS FOR AIR SERVICE WORK.

“In the midst of all these great reductions, and in the midst of this reorganization, calls had come from the East for additional Air Forces. These calls had had to be met, and the Royal Air Force had been in action in

the past year in many parts of the world against the Afghans, Mahsuds, and Waziris. In the recent Afghan war the Royal Air Force were stated by the Commander-in-Chief to have appreciably shortened operations. In two days they compelled the unconditional surrender of the Kharza Madda Khel. The Services of the Force had also been made available in Egypt, where by next April it was hoped there would be seven squadrons of modern machines. A curious development of the work of the Royal Air Force had been the photographing of a serious outbreak of the Nile, whereby the flooded area was clearly defined and the work of dealing with the difficulty was very much assisted. In Mesopotamia the Force had been constantly engaged in maintaining order and communications, in making maps, and even in collecting revenue. In Russia during the last year the Force had been engaged in work of exceptional difficulty, both in the south and the north. In the north it gave great assistance in covering the evacuation. A feature of this work was the great success of the seaplanes. They also heard from Aden some time ago that Colonel Jacobs's Commission had been captured and that there was a serious plan being made for the dispatch of a considerable force to relieve him. Fortunately, this object was attained simply by the dispatch of two aeroplanes, resulting in an enormous saving in every way. In the case of Somaliland, 12 aeroplanes played a most decisive part and in three months broke up the power of the Mullah over a district which he had devastated for many years, at a very small cost in life and expenditure. The Force, therefore, had proved a most valuable addition to the method by which in the future we might police our distant Empire."

TRAINING.

"With regard to training, the Royal Air Force Cadet College was opened at Cranwell on February 5th, this year. There were 52 cadets there, including 17 midshipmen who had been transferred from the Navy. A number of Royal Air Force officers had gone through a course of four terms at Cambridge through the courtesy of the University Colleges, and an excellent report had been received on their work. The training of boys as mechanics was steadily going on at Halton. New enlistments were being sent to Cranwell. The closing of surplus stations had proved a huge work, but it was hoped that they would be all closed by the end of April, including those in France and Flanders. On the question of stores, they were getting help from the Army and Navy with supplies of certain stores, to avoid duplication where possible—to give an example, rations, marine craft, torpedoes, machine guns, ammunition, clothing, petrol and oil, maps and compasses—

and it was a notable example of our connection with both Services that three of these items came from the Army, three from the Navy, and two from both Services. In the matter of stores the Air Force was getting help from the Army and Navy, and so avoiding wasteful expenditure owing to overlapping. Co-operation with the Army and Navy was taken into account in the distribution of training centres. Plans were being prepared for the Secretary of State's proposal to substitute R.A.F. units for considerable military forces in Mesopotamia if a considerable economy was found to be practicable, and an important development was shown in the announcement that if the R.A.F. supplied the main power involved the command would be held by an R.A.F. officer."

CIVIL AVIATION.

"Civil aviation was under the control of the Controller-General of Aviation, who had done most valuable work. The International Air Convention had been signed by Australia, New Zealand, South Africa, India, and by 25 other countries. Legislation would be introduced to give effect in this country to the terms of the Convention.

It was hoped to establish an air mail service to Holland, similar to those between London and Paris and Belgium. It was a source of pride that great aerial enterprises had radiated from this country. The service side of the R.A.F. had also helped the cause of civil aviation by the historical flights of the rigid airship R.34, in its double journey across the Atlantic, and by the flight to India, which had opened up the route. Progress had been made in other parts of the Empire. In Canada, India, and Australia, air boards had been created. British firms had secured considerable contracts for aircraft in South Africa, China, Poland and Scandinavia. On the civil air lines already established there had been carried between August 26th and December 31st, 1919, £59,826 worth of imports and £31,185 worth of exports. This traffic had mainly consisted of clothing. Two-thirds went to France and one-third to Belgium. The passengers carried were 603 to the Continent and 295 from the Continent."

AIR SHIPS.

At the beginning of 1919 there were five rigid and 87 non-rigid airships in commission and 14 stations. They were being reduced to a peace footing of one rigid and three non-rigid airships with one permanent station. The Colonial Governments were acquiring non-rigid airships for various purposes, including forest patrol and general survey work.

THE BRITISH NAVY.

A policy of strict economy was proclaimed by the First Lord of the Admiralty when the Navy Estimates were handed down on March 12th, 1920. No new programme of construction was submitted, the only new work being the completion of ships already begun. The total amount asked from the House of Commons for the year 1920-1921 was £96,500,000. From this, two deductions had to be made. For special liabilities arising out of the war, and not connected with the upkeep of the Navy for the current year a sum of £19,000,000 had been added, and £40,000,000 was required for the completion of work already begun that could not then be stopped. With these deductions the sum of £37,500,000 was left for the cost of the Navy for the year, as compared with £35,200,000 for 1913-1914, the last year before the war.

PERSONNEL OF THE FLEET.

At the time the War began, the total number of officers and men serving in the Navy was 151,000. For the post-war fleet, it was explained by Mr. Walter Long, First Lord of the Admiralty, that the number would be 127,500. When the armistice was declared in Novem-

ber, 1918, the number serving was 407,317. A year later it had been reduced to 257,000. In March, 1920, when the Navy Estimates were laid before the House, the number was 136,000, and by the end of 1920 it was reduced to 131,000. All the men who had enlisted for the war had been discharged before March, 1920, with the exception of about one thousand, and of these six hundred belonged to the trawler reserve and were being kept on until their boats had been reconditioned and released for civil work.

The release of so many men meant necessarily that there was a large surplusage of officers, and care was taken to draw up a satisfactory scheme for the retirement of those who were not needed. This scheme was made public in April, and included the following special terms for officers retiring voluntarily between April 1st and October 1st, 1920:—

LIEUTENANT-COMMANDERS, LIEUTENANTS, AND MATES.

(including all lieutenants, ex-mates, and mates from warrant rank, but not other officers promoted from warrant rank).

(a) Officers between the ages of 36 and 40.—Retired pay will be granted on the following special scale, with a gratuity of £500 in addition :—

Age on retirement.	Standard rate of Retired Pay.	Service required to earn standard rate.	Addition for each full year's additional commissioned service or deduction for each full year wanting to complete the periods specified, limited to 5 years in each case.	
	£	Years.	Addition.	Deduction
*39	290	16	£15	£10
38	277	16	15	10
37	265	15	15	10
36	252	15	15	10

*These rates will not be affected by subsequent variations in the cost of living.

(b) OFFICERS BELOW THE AGE OF 36.

Lieutenant-Commanders	{	A gratuity of £2,500 with an additional £200 for each year's seniority in the rank of lieutenant-commander.
Lieutenant or Mate (confirmed in those ranks).		
Acting Lieutenants of two years' seniority or over as confirmed Sub-Lieutenants	{	Gratuity of £1,000 with an addition of £150 for each year's seniority in the confirmed rank of lieutenant or mate.
		Gratuity of £1,000.

NOTE.—A mate or lieutenant promoted from mate who has reached the age of 30 will be eligible, if to his advantage, to receive retired pay on the warrant officers' scale instead of a gratuity, service as mate or lieutenant to be considered as equivalent to service as warrant officer for that purpose.

Sub-Lieutenants (confirmed in that rank) and acting Lieutenants of less than two years' seniority as confirmed Sub-Lieutenants	{	A Gratuity of £500.
Acting Sub-Lieutenants (who held the acting rank on March 24, 1920)		

The retired pay and gratuities will be based on the rank and seniority of the officer at the date of retirement, except in the case of acting sub-lieutenants, who will only be eligible for the gratuity of £500 if they held the acting rank of sub-lieutenant on March 24th, 1920. Midshipmen promoted to acting sub-lieutenant subsequent to that date will be eligible for the withdrawal grant of £400, as already notified.

BRITISH NAVAL POLICY.

The policy of the British Government with regard to the navy has always been to preserve the superiority of Great Britain over all other nations. This policy, Mr. Long explained on March 17th, was to be continued. "I think it was generally accepted," he said, "that our strength ought to be equivalent to that of the two next strongest powers." Before the war it had been easier to follow out that policy and Mr. Long suggested that circumstances made necessary some modification of it. "While it is of course essential" he continued, "that the Navy of Great Britain must be maintained at a strength and a standard of efficiency sufficient to enable it to do its duty by the Empire, yet it is also true that, look where you will, you will find it difficult to-day to find a possible enemy. The Germans who were the cause of the war, who brought so much suffering upon humanity, who were so proud of their navy, who huilt it at such immense expense to themselves and thereby entailed very great expense upon us too, the Germans are to-day without a navy. A portion of it lies beneath

the waters of Scapa Flow, and a portion of it has been distributed by the Allies in the different forces of those allies. The Germans have disappeared. There is practically no naval power to-day which can offer to us any serious threat of opposition because the navies of our principal enemies have been destroyed."

Surveying the navies of the world, Mr. Long pointed out that the only two countries that were expanding their navies were the United States and Japan, the one an ally by nature and the other an ally by diplomatic means. He congratulated the House on the good fortune resting in the fact that the only navy approximating in strength to that of Great Britain is that of the United States, "with whom we are associated in such a way that the idea of competition in armaments between us is one that is, to put it mildly, repugnant to us all."

Supplementing the speech of the First Lord of the Admiralty, Commander Bellairs made a more detailed comparison of the three navies—British, Japanese and American. "We are now," he said, "six times as strong as Japan, which is the position that Germany occupied in 1900. Japan is a great nation with a population of 60,000,000 and expanding. It is a nation with a high military spirit; in fact following the Armistice, naval manoeuvres were carried out on a gigantic scale under the supreme direction of the Emperor of Japan. The programme which Japan has in view consists of eight battleships with eight battle cruisers, armed with 16-inch guns, while it is proposed to replace all vessels over eight years of age, and not 20 years as formerly. We may have no programme for next year or the year after, and we shall still be three times as strong as Japan." Turning to the United States, Commander Bellaire pointed out that Great Britain had only 16 big ships in commission while the United States had 29. The United States had, however, much greater difficulty in manning her ships than had Great Britain. "It is unthinkable," he continued, "that we can contemplate military rivalry with the United States. Commercial rivalry, yes; but a fratricidal strife between this country and America is unthinkable. You could not get the navy to carry out orders if we ever had anyone as mad as George III. amongst our politicians to bring this country to the verge of war."

DISTRIBUTION OF THE FLEETS.

The two main fleets of the British Navy are the Atlantic and the Mediterranean fleets, and Mr. Long informed the House of Commons that the Admiralty proposed to retain this arrangement. There were in addition the various squadrons stationed all over the world. Mr. Long considered it essential in the interests not of peace or war, but of trade and commerce and progress and prosperity "that our ships should show the flag in different parts of the world." "There are abundant cases," he added, "where the appearance of an English cruiser in foreign waters has given an enormous impetus to the efforts and labours of those who are trying to push British trade in different parts of the world."

With the suspension of new construction a serious question had arisen in the dockyard towns in connection with unemployment of former dockyard workers. A committee, with Lord Colwyn as Chairman, had been appointed in 1919 to consider the question and had made the following recommendation :—

We recommend that the Admiralty should use their surplus facilities in the construction of mercantile vessels. The concentration on these vessels by the building yards would release sufficient repair and reconditioning work to keep the other dockyards in employment. We do not regard this as a permanent solution of the difficulty nor recommend that it should be carried on indefinitely. The future of the ship-building trade is uncertain and offers no guarantee of a long era of construction. But we consider that this proposal offers to the Admiralty an expedient for tiding over a difficult period of distress, and the Committee hope and expect that, in the present position of the shipping trade, the Admiralty will be able to build without any loss.

There was an extended debate in Parliament, vigorously shared in by Viscountess Astor, who championed the unemployed workers of Devonport, the twin city

of her constituency, Plymouth, on the failure of the Government to carry out this recommendation. Mr. Long offered the excuse that the men who were unemployed did not include many shipwrights, and that the offers of work for private firms or corporations had been for the hulls of ships which the Admiralty were not well equipped to build, and not for engines and machinery which they could easily have supplied. The sole vessels that the Admiralty had contracted to build up to March, 1920, were two oil tank steamers, one of which was to be constructed at Devonport and the other at Pembroke.

The number of industrial employees in the dockyards and home establishments at the time of the Armistice was 105,000. By March, 1920, this number had been reduced to 72,000. It was stated at the time of the debate that there were 6,000 unemployed in Devonport alone. The Admiralty Headquarters staff had been reduced between November, 1918, and March, 1920, from 10,367 to 5,400. The Women's Royal Naval Service which had consisted of 564 members was disbanded during the year. In March, 1920, there were still 291 of these women at work, but the number was being reduced as rapidly as possible and the places of the women were given to ex-service men.

SHIPS UNDER CONSTRUCTION.

The work that was still being done in the dockyards included the completion of the following vessels, all of which had been commenced before the termination of the war :—

- 1 Battle cruiser,
- 2 flotilla leaders,
- 13 submarine boats,
- 9 light cruisers
- 8 torpedo boat destroyers
- 2 aircraft carriers
- 5 auxiliary vessels

EDUCATION AND PROMOTION.

The Statement on the Naval Estimates contained the outline of a scheme similar to the scheme devised for the army, for the promotion of men from the Lower Deck to the rank of officers. The scheme included an adequate provision for the necessary education. During the war 3,101 promotions were made to warrant rank and 497 to the rank or equivalent of mate. An arrangement had been made with the University of Cambridge to admit a certain number of these sailors to a special course there. The scheme was described by Sir D. Maclean as "an open door at last for the Lower Deck to attain commissioned rank."

PAY OF OFFICERS.

The Rates of pay—income tax paid—before and after the war are given in the accompanying table. Income tax is calculated on the supposition that the men are unmarried, married men would enjoy the exemptions of the act of 1920 :—

	1914	1920
	£	£
Captain, R.N.	398	896
Commmander	389	636
Lt.-Commander	233	490
Lieutenant	181	293
Mate	146	277
Sub-Lieutenant	91	179

In the army an extra allowance is made to an officer when he marries. No such allowance is made to a naval officer, and an effort was made in Parliament to correct this inequality, especially in view of the low pay of junior officers. The First Lord of the Admiralty refused to accept any suggestion of a change in the system on the ground of economy, and suggested that those who desired it should address themselves to getting the Dominions, especially India, to make a larger contribution to the cost of the Imperial Navy.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of at least six Trustees, appointed jointly by the Municipal Councils concerned. In Urban Municipalities Trustees may be appointed by the Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have the right to appoint a trustee. The Principal of the High School or Collegiate Institute must be a graduate of a University in the British Dominions, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and funds must be raised by local assessment. Every High School must have a Principal and at least one assistant teacher. Each Collegiate Institute receives a fixed amount of \$250, and each High School with fewer than four teachers \$300, other schools \$275, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes. Special grants ranging from \$40 to \$160 are also given to "Approved Schools." Pupils attending Continuation and High Schools, and Collegiate Institutes may receive training fitting them for business life or the academic standing required of school teachers, or may be prepared for Matriculation to the Universities. There are 47 Collegiate Institutes, 121 High Schools, and 145 Continuation Schools doing the same grade of teaching in connection with the Public and Separate Schools in Ontario in 1920-1921.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to form a Board to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by an elected Board of at least six Trustees.

TECHNICAL AND INDUSTRIAL SCHOOLS.

The Industrial Education Act provides for the organization of a system of Technical and Industrial Schools for Ontario. These schools are (1) *Day Schools*, as follows:—(a) General Industrial Schools and Courses for instruction in such subjects as may form a basal preparation for the trades, including workshop practice; (b) Special Industrial Schools and Courses, for instruction in the theoretical and practical work of particular trades; (c) Technical High Schools and High School Courses; (d) Part-time co-operative Industrial Courses in which apprentices employed in the workshops may receive instruction bearing upon their trades; (e) Schools and Courses for instruction in the fine and applied arts. (2) *Night Schools*, in which workmen and workwomen employed during the day may receive theoretical and practical instruction in their trades or callings. Each school is under the control of an Advisory Industrial Committee appointed by the High School Board of the municipality. This committee consists of an equal number of representatives of the Board and of the manufacturing or other industries of the place. The representatives of the industries are made up equally of employers and employees. The schools are liberally supported by

Government grants, based upon the amount paid for the salaries of the teachers, and for buildings and equipment. Schools are conducted under this Act as follows:

Day Schools at Brantford, Chatham, Collingwood, Haileybury, Hamilton, Kingston, London, Ottawa, Sault Ste. Marie, Sudbury, Toronto and Windsor.

Night Schools at Almonte, Barrie, Beamsville, Belleville, Brantford, Brockville, Chatham, Cobourg, Collingwood, Dundas, Espanola, Fairbank, Fort William, Galt, Goderich, Guelph, Haileybury, Hamilton, Ingersoll, Kenora, Kitchener, Lindsay, London, Midland, Newmarket, Niagara Falls, Orillia, Oshawa, Ottawa, Owen Sound, Parry Sound, Pembroke, Perth, Peterborough, Port Arthur, Preston, Port Hope, Renfrew, Sarnia, Sault Ste. Marie, Stratford, St. Catharines, St. Thomas, Sturgeon Falls, Sudbury, South Porcupine, Timmins, Thorold, Toronto, Turbine, Walkerville, Welland, Whitby, Windsor and Woodstock.

Principals of Industrial and Technical Schools—Hamilton Technical and Art School, G. L. Sprague, B.A.; London Industrial and Art School, H. B. Beal; Ottawa Technical School, W. W. Nicol, B.A.; Toronto Technical and Art School, A. C. McKay, B.A., LL.D.

EDUCATIONAL INSTITUTIONS.

THE UNIVERSITY OF TORONTO

WITH WHICH ARE FEDERATED

Victoria and Trinity Universities, and St. Michael's, Knox, and Wycliffe Colleges.

The University of Toronto includes the Faculties of Arts, Medicine, Applied Science and Engineering, Household Science, Forestry and Music. The Faculty of Arts, in its turn, includes the four Arts Colleges:—University College, Victoria College, Trinity College and St. Michael's College, in one or other of which all undergraduates in Arts are enrolled. In certain subjects (chiefly the languages) the undergraduate work is conducted by these colleges, each for its own students; in the remaining subjects (chiefly the sciences) all the students receive instruction in common from a general University Arts Staff. For all Arts students, whatever their college, the curriculum and examinations are those of the University of Toronto, from which also they receive their degree of B.A. The University has no Faculty of Theology; in this department of work the federated Universities, Victoria and Trinity, still retain their original independence and degree-conferring powers.

The following Colleges are in affiliation with the University of Toronto, their Students obtaining their Degrees at this Institution:—

Ont. College of Education	Ontario College of Pharmacy
Royal College of Dental Surgeons	Ontario Agricultural College
	Ontario Veterinary College

KIPLING'S VERSE

Complete in one great volume, with full index to
titles and first lines

Price - - - - - \$5.00

All of Kipling's verse—the songs that for decades have been the marching tunes and exhortations of all the English speaking peoples; the songs that are, according to Brander Matthews, “the greatest poetry of our generation.” Among them is “Greatheart,” that magnificent tribute to Theodore Roosevelt, bringing his work down to the year 1919. This volume, **Rudyard Kipling's Verse; Inclusive Edition, 1885-1918**, contains all of Kipling's published verse and a full index to titles and first lines.

LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1919, was conducted by 43 active companies—24 Canadian, 8 British, 11 Foreign.

NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to \$524,543,629, an increase from those taken out in the preceding year of \$211,292,073. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$320,150,705, or 61% of the whole
British Companies .. 11,264,394, " 2% " "
Foreign 193,128,530, " 37% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by \$115,757,781.

TOTAL ASSURANCE IN FORCE.

The net amount of life assurance in force December 31st, 1919, amounted to \$2,187,837,317, an increase over that of the previous year of no less than \$402,776,044. The distribution is shown as follows:

Companies.	Amount in Force.	Increase.
	\$	\$
Canadian.....	1,362,631,562	257,128,115
British and Colonial.....	66,908,064	6,611,951
United States.....	758,297,691	139,035,978
Total.....	\$2,187,837,317	\$402,776,044

The progress of the business, from the standpoint of the volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

LIFE ASSURANCE IN FORCE AT CLOSE OF

Year	Canadian Companies.	British Comp'nies	Foreign Companies.	Total.
	\$	\$	\$	\$
1889	125,125,692	30,488,618	76,349,392	231,963,702
1899	252,201,516	38,025,948	113,943,209	404,170,673
1909	515,415,437	46,985,192	217,956,351	780,356,980
1919	1,362,631,562	66,908,064	758,297,691	2,187,837,317

From \$231,963,702 in 1889 to \$2,187,837,317 in 1919, represents the large increase of over 843% in thirty years.

DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1919 was 8.3, a decrease below the lowest rate in the preceding four years. The total death claims incurred from all causes amounted in the year 1919 to \$16,927,345. The war claims amounted to \$785,331, or 4.64% of the total, and claims due to influenza to \$2,995,228 or 17.69% of the total. The following table gives the rate for each of the years 1915-16-17-18-19:

	1919.	1918.	1917.	1916.	1915.
Active Companies (ordinary)	7.5	14.8	11.323	10.649	8.368

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies with Dominion charters for the year ending December 31st, 1919:

Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 157 (1914), the Benchers consist of 30, elected by the Bar, and *ex-officio* members, consisting of the Minister of Justice, the Solicitor-General of the Dominion, and all members of the Bar of Ontario who have at any time held the office of Minister of Justice or Solicitor-General of the Dominion or of Ontario, or the Attorney-General of Ontario, and every person who has held this office. Every person, treasurer of this Society for seven consecutive years, every person who has been elected for four quinquennial elections, and so long as he does not practice as a Barrister or Solicitor, every retired Judge of the Supreme Court of Canada or of the Exchequer Court of Canada who was a member of the Bar of Ontario, and any retired Judge of the Supreme Court for Ontario; the *elected* being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation for the call of Barristers, the admission of Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Supreme Court of Ontario; with a valuable and extensive library.

Museums in Canada.

ROYAL ONTARIO MUSEUM.

Bloor Street and Avenue Road, Toronto.

ROYAL ONTARIO MUSEUM OF ARCHÆOLOGY—C. T. Currelly, O. Medj., M.A., F.R.S.C., *Director*.

The museum possesses large collections that show the primitive skill of the men in the Palæolithic, Neolithic, Copper, and Bronze ages. The early grain civilisations are illustrated in three galleries of Babylonian and Egyptian objects; the classical period occupies two galleries, and ethnology and the American Indian three. Of civilisation later than that of Rome special attention has been given to the collections of arms, glazed earthenware, Chinese ceramics, Japanese work, wood-work and furniture, textiles, embroideries and laces.

The collections have been formed to teach as far as possible the history of mechanical work, and to be a stimulus to the modern worker.

ROYAL ONTARIO MUSEUM OF GEOLOGY—Professor A. P. Coleman, Ph.D., F.R.S., *Director*.

The exhibits are arranged chiefly on an economic basis, sections being devoted to ores of the metals, fuels, ceramics, building stones, abrasives, refractories, etc. Especial attention has been directed to building and ornamental stones, copper and nickel ores, marbles and Canadian coals. The economic geology of famous mining regions is illustrated by suites of specimens among which the series from the nickel region of Sudbury is particularly complete. Glacial geology has received particular attention: striated surfaces, striated stones, and tillites are represented from all the known ice ages and from all parts of the world.

ROYAL ONTARIO MUSEUM OF MINERALOGY—Professor T. L. Walker, Ph.D., F.G.S., *Director*.

This museum contains an unusually complete series of minerals from all parts of the world as well as a special collection of Canadian minerals for consultation by visitors particularly interested in the minerals and ores of Canada. The museum also contains collections of crystals, rocks, meteorites, radium minerals, and rocks from Antarctica.

A large part of these collections has been presented by persons connected with the mining industry.

ROYAL ONTARIO MUSEUM OF PALÆONTOLOGY—Professor W. A. Parks, Ph.D., F.G.S.A., *Director*.

The museum contains extensive series of Invertebrate fossils arranged to illustrate the anatomy and classification of the different zoological branches, and to indicate the important faunas of the geological ages. Vertebrate fossils are represented by striking reptiles and by an excellent collection of fishes. Fossil plants are shown by good series of Carboniferous, Cretaceous, and Interglacial forms. The collections contain also a special Canadian series designed for the use of students of Canadian geology.

Much unique material is included in the exhibits, and many type specimens of particular value, e.g., Matthews types of Cambrian fossils from eastern Canada.

ROYAL ONTARIO MUSEUM OF ZOOLOGY—Professor B. A. Bensley, Ph.D., F.R.S.C., *Director*.

Contains exhibits of representative groups of animals, chiefly Canadian. About 1,000 mounted specimens of birds. Special exhibits of foreign birds, including pheasants, humming birds, and birds of paradise. Collections illustrating natural history of Atlantic and Pacific coasts of Canada.

ONTARIO PROVINCIAL MUSEUM, TORONTO.

EDUCATION DEPARTMENT, ST. JAMES SQUARE.

Copies of ancient and modern statuary, busts of British and Canadian celebrities, paintings by Ontario artists, insects and reptiles mostly of Ontario; mounted birds and mammals. In the Archæological and Ethnological department there are upwards of 35 thousand

specimens illustrative of primitive life in America, but especially in Ontario. The officials of the Museum are at all times ready to identify Archæological and Natural History specimens for the public, and give such further information relating thereto as is required. As the property of the provincial government, it is open to the public, free, daily, from 9 a.m. to 5 p.m. Dr. R. B. Orr, *Supt.*; C. W. Nash, *Biologist*.
